Leaders in sustainable composite building materials

# EVA-LAST TECHNOLOGIES

Eva-Last offers four unique composite technologies, each with its own distinct characteristics, benefits, look, and feel. Discover which composite range is right for you.

## Pioneer

REINFORCED BAMBOO  
FOAMED-PVC COMPOSITE

Pioneer uses cutting-edge photorealistic print technology to create our most natural looking composite.

## Apex

CAPPED BAMBOO FOAMED-PVC  
COMPOSITE

Apex and Apex PLUS offer a carefully crafted dual tone colour range to embrace the nuances found in timber.

## Infinity

CAPPED BAMBOO COMPOSITE

Infinity colour technology gives each board unique colour variation to embody the essence of timber.

## Eva-tech

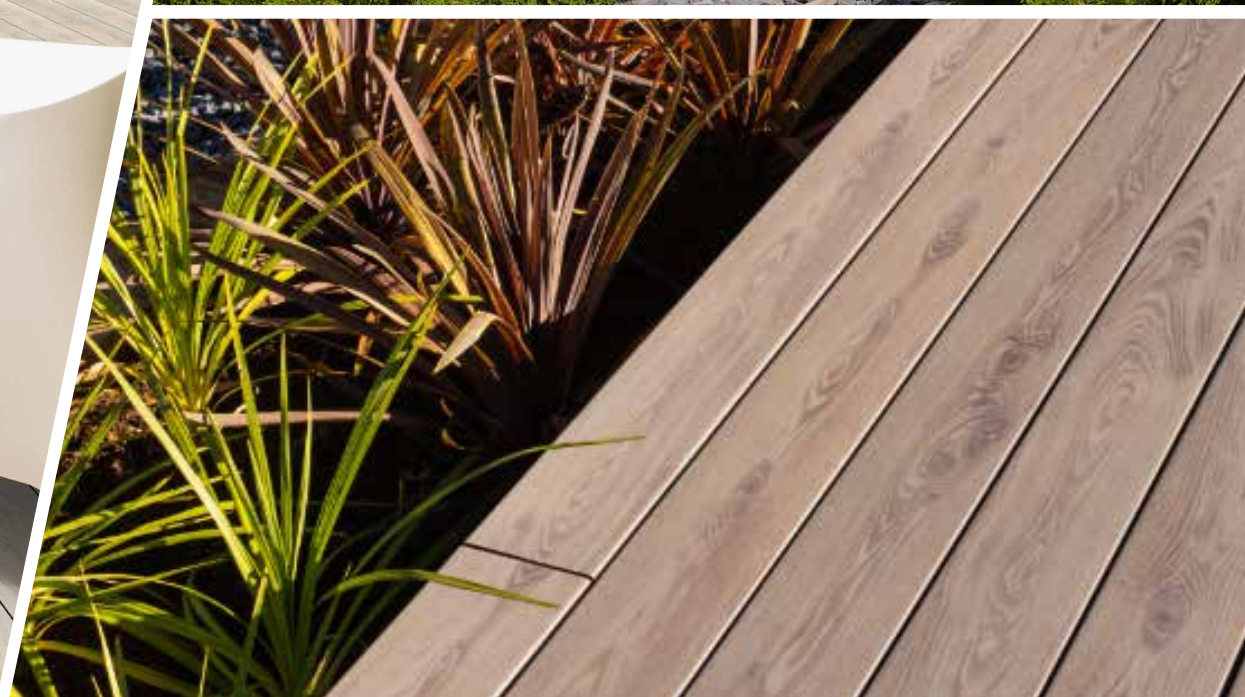

BAMBOO COMPOSITE

Eva-tech offers a timeless colour range in four natural shades with an attractive wyde or dual tone finish.

# Pioneer

REINFORCED BAMBOO  
FOAMED-PVC COMPOSITE

# Pioneer

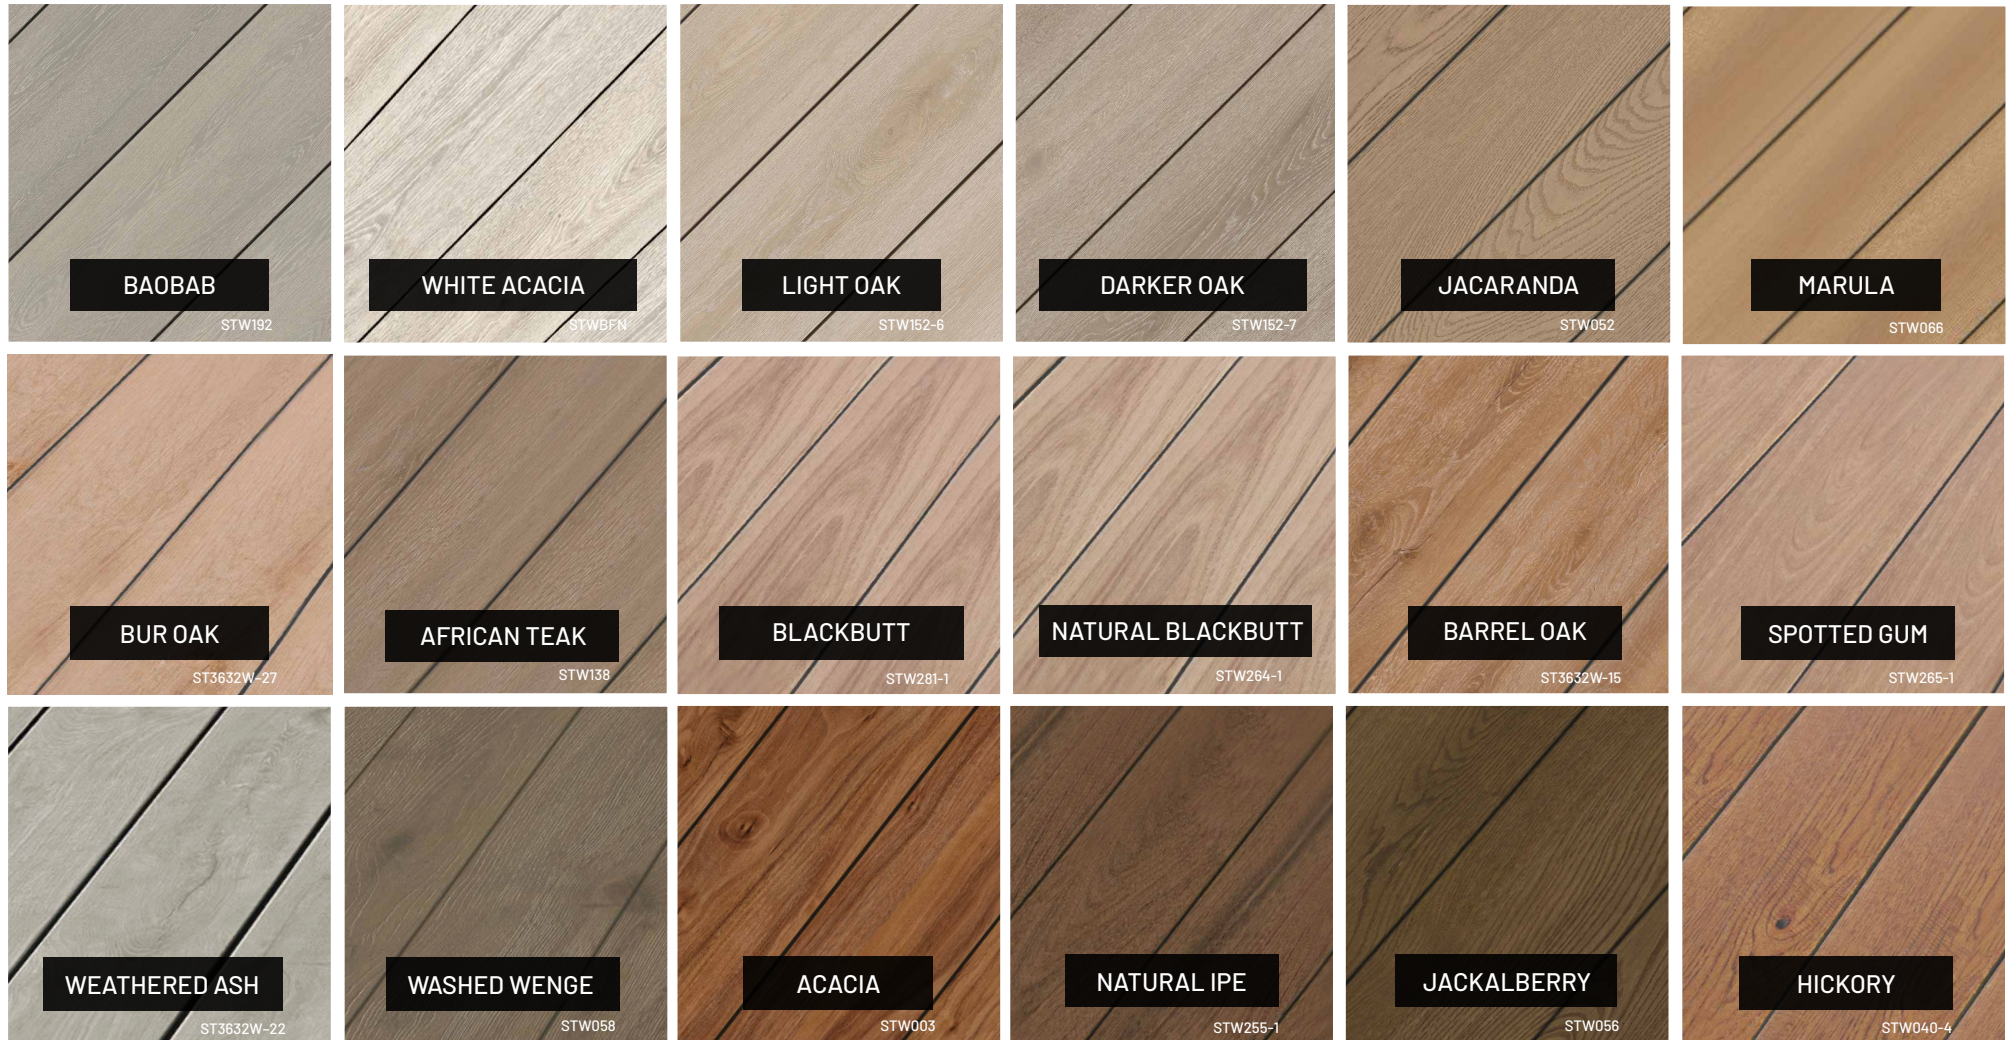

FSC certified bamboo composite product

## PIONEER COLOUR GUIDE

The Pioneer colour range celebrates the beauty of timber with exceptionally natural-looking composite. Pioneer offers state-of-the-art high resolution print technology to give each board an unrepeated realistic wood grain texture. This technology mirrors hues and tones of specific timber types.

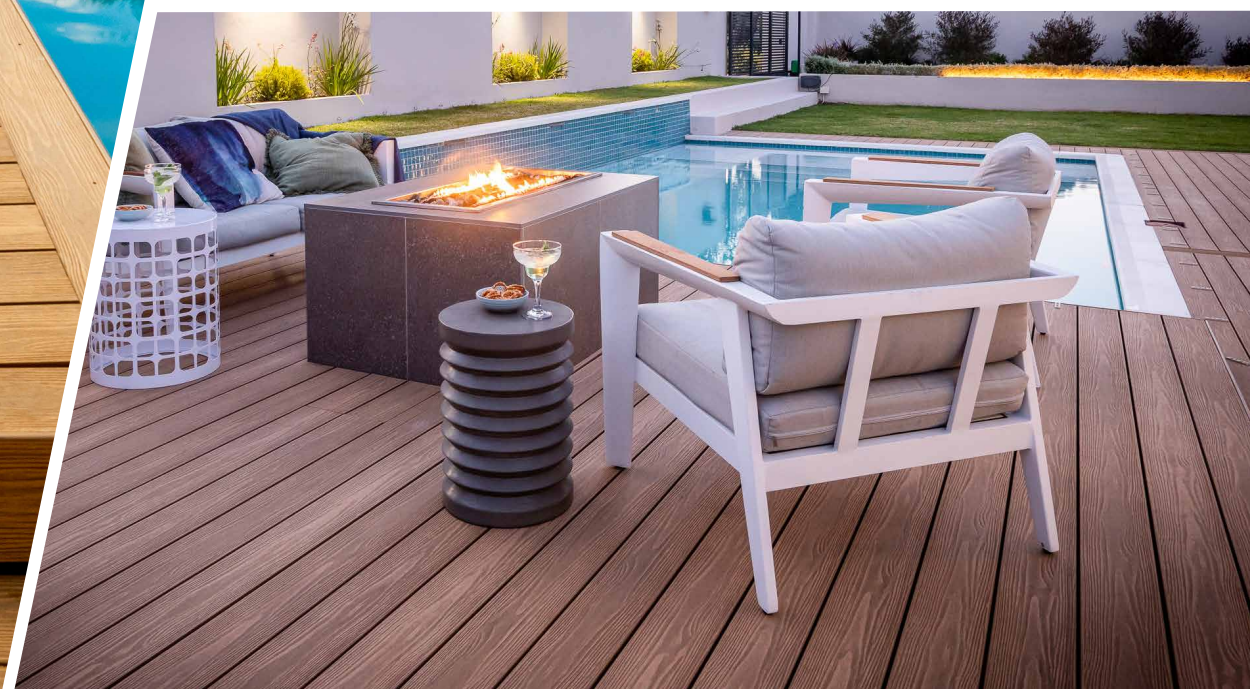

**Note:** To find out which colours are available in your region, please visit your local Eva-Last website.

# Apex

CAPPED BAMBOO  
FOAMED-PVC COMPOSITE

# Apex

INCLUDING **Apex PLUS**

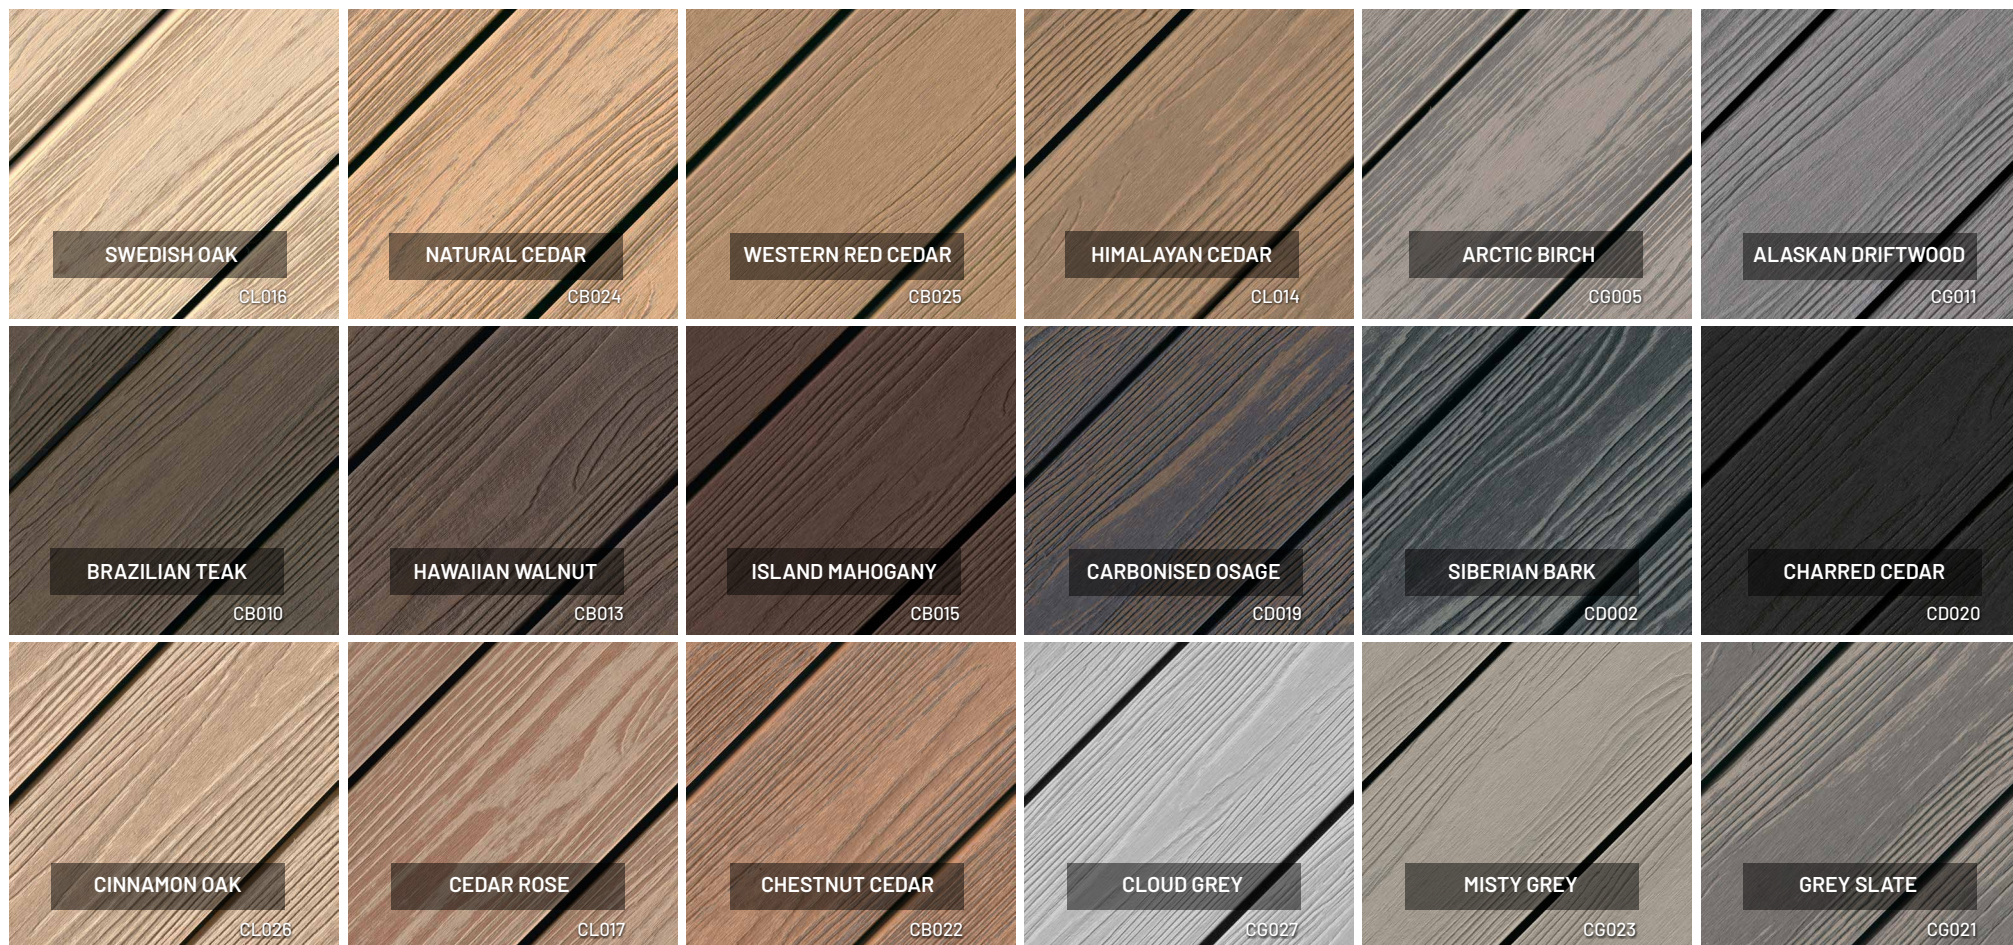

FSC certified bamboo composite product

## APEX & APEX PLUS COLOUR GUIDE

Apex dual tone colour range adds an extra layer of colour to each board to enhance the natural look of the composite boards. The variance in shades within a single composite profile beautifully showcases the colour tones found in timber, making your composite all the more striking.

**Note:** To find out which colours are available in your region, please visit your local Eva-Last website.

# Infinity

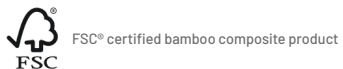

CAPPED BAMBOO COMPOSITE

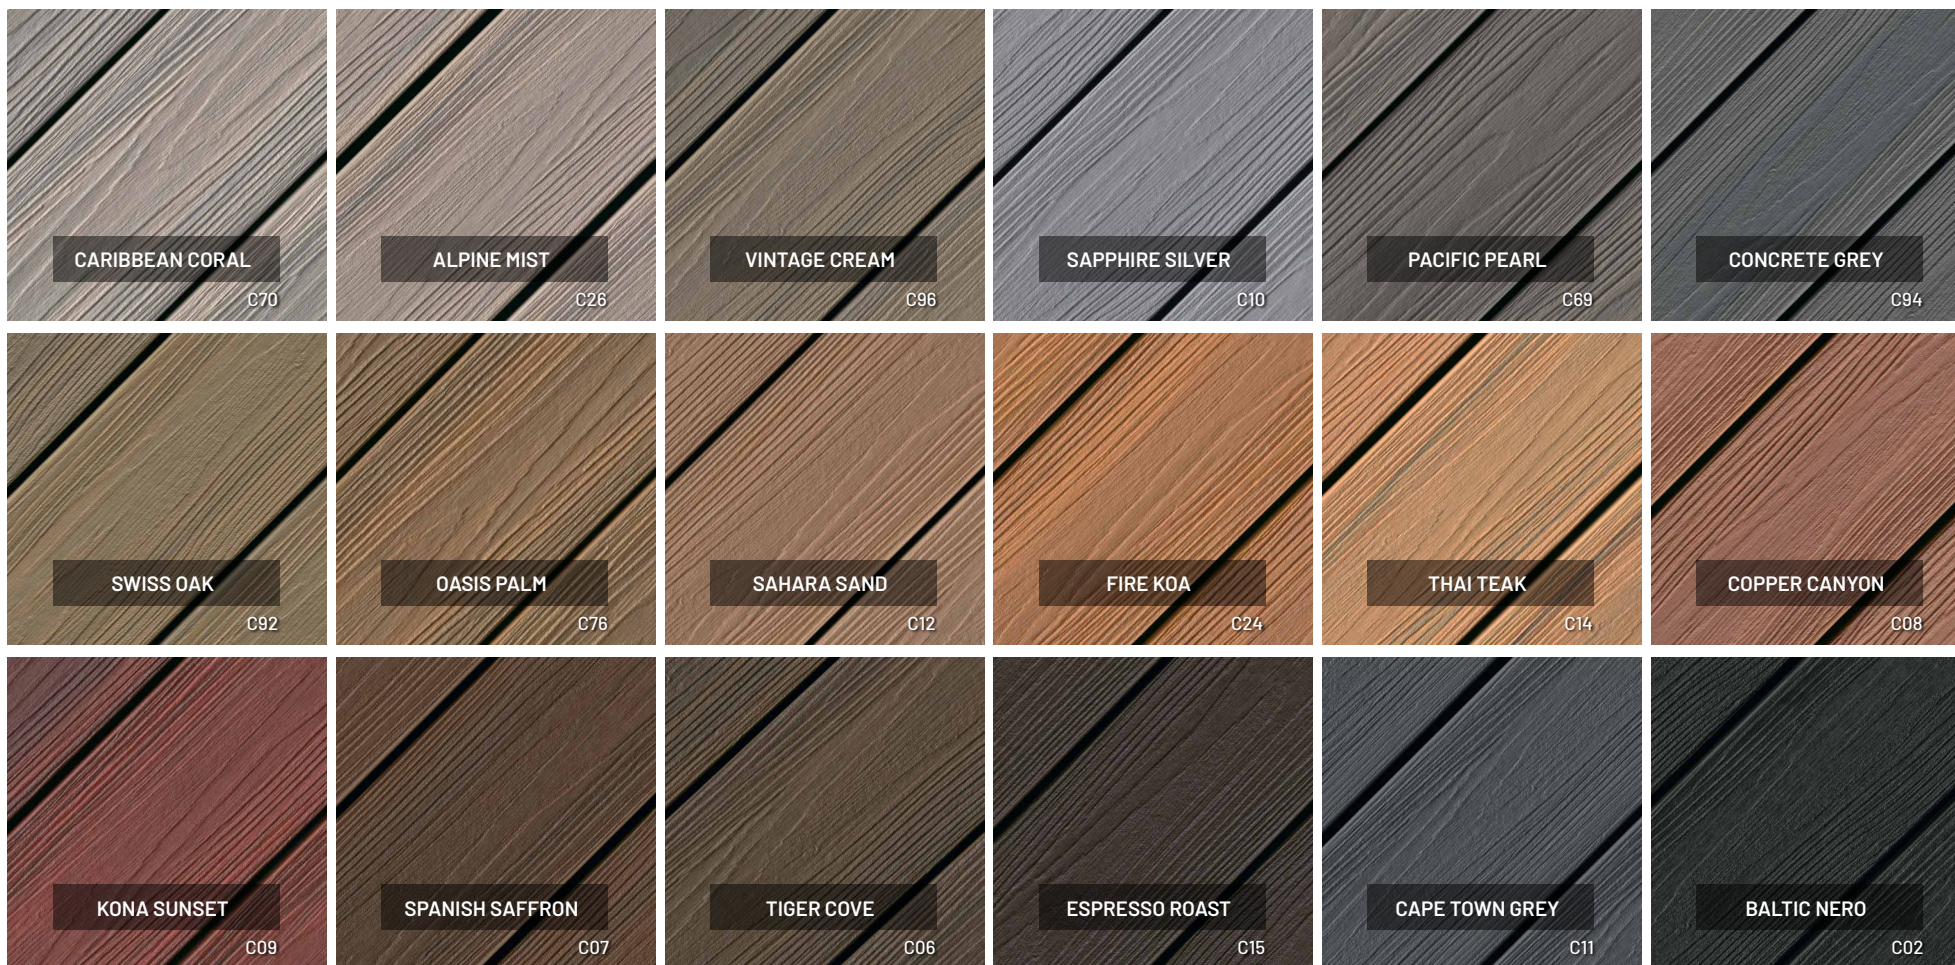

# Infinity

INCLUDING *Infinity* **15**

## INFINITY COLOUR GUIDE

Infinity composite offers incredibly natural-looking colours thanks to its advanced colour technology which gives each board unique colour variation to embody the essence of timber. Enjoy the beauty of wood with the benefits of composite.

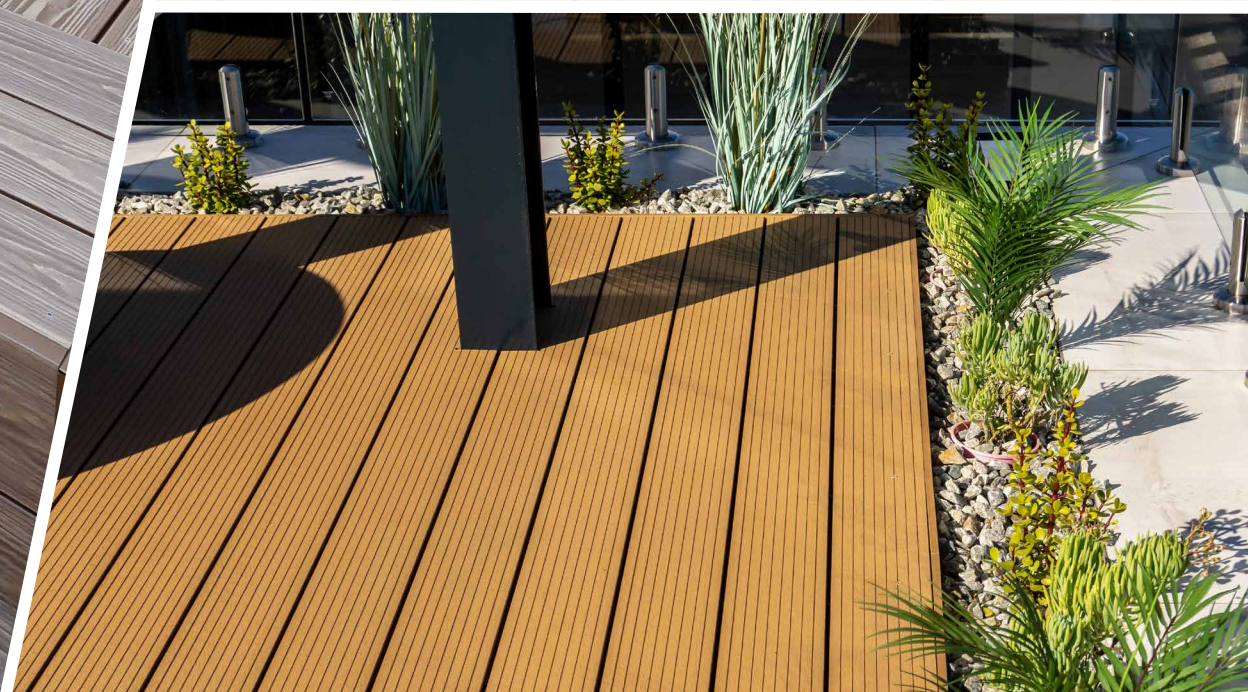

**Note:** To find out which colours are available in your region, please visit your local Eva-Last website.

# Eva-tech

BAMBOO COMPOSITE

INCLUDING **Eva-tech IS**

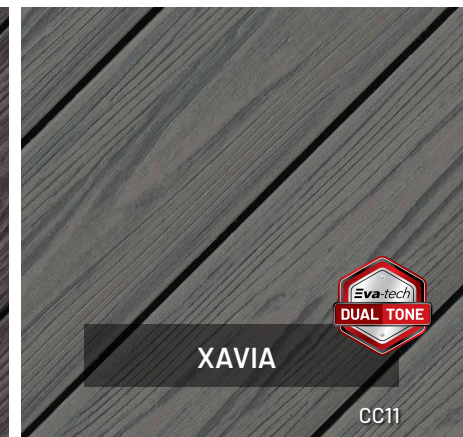

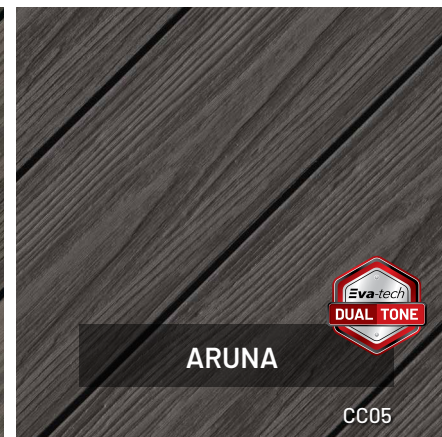

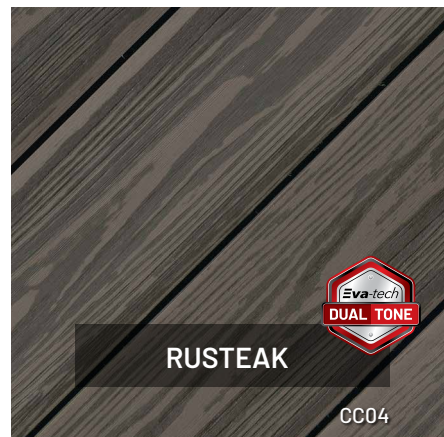

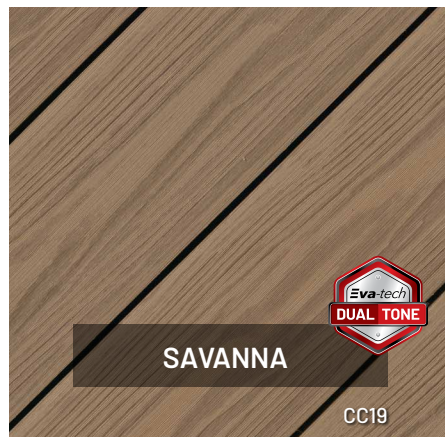

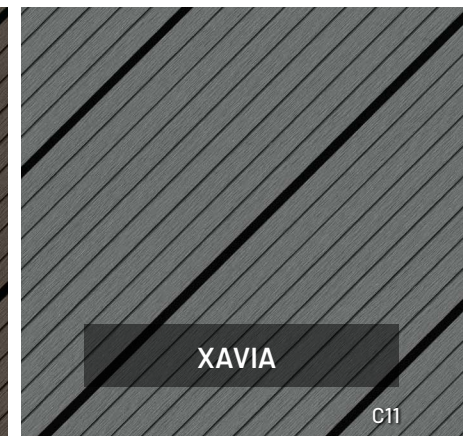

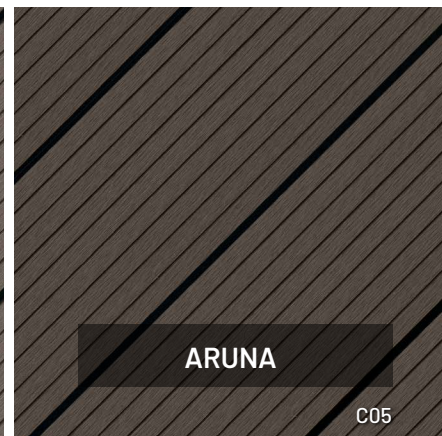

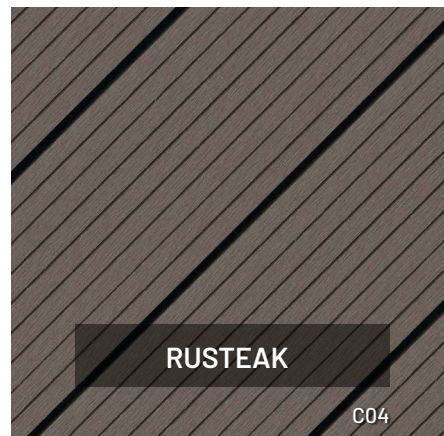

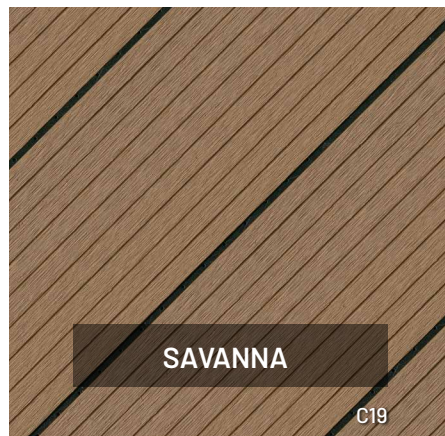

FSC certified bamboo composite product

## EVA-TECH COLOUR GUIDE

The Eva-tech colour range offers timeless natural colours. Choose from the wyde board with its sleek grooved surface finish, or the new dual tone timber textured board, both available in matte Eva-tech colours. Each Eva-tech colour is specially designed to evoke the essence of a particular timber type. The Eva-tech dual tone colour option adds an extra level of colour technology to each of the four classic Eva-tech colours to give you an even more natural-looking composite.

**Note:** To find out which colours are available in your region, please visit your local Eva-Last website.
