EVOLVER
THE EVOLUTION OF FENCING

ALUMINIUM FRAMED HORIZONTAL COMPOSITE FENCE

The Evolver fence system allows for complete customisation by pairing optimised aluminium posts and framing with environmentally friendly bamboo composite boards for a low-maintenance, modern-looking, and long-lasting corrosion resistant fence.

CAREFREE COMPOSITE FENCING

Evolver composite fencing brings privacy and peace of mind to your outdoor oasis. Choose from its natural colour range and customizable style options to get the look you want. Enjoy the hassle-free lifestyle it offers thanks to its low-maintenance and weather resistant features. Feel good knowing you've chosen an eco-friendly alternative to traditional wood fencing.

Advantages of Evolver composite fence

- Composite fence profiles come with long warranties.
- Composite is resistant to insects, decay, fade and moisture.
- Anodised aluminium framework is highly resistant to corrosion and insects
- Composite is low maintenance, only requiring the occasional cleaning to keep it in optimal condition.

COMPONENT PROFILE IMAGES

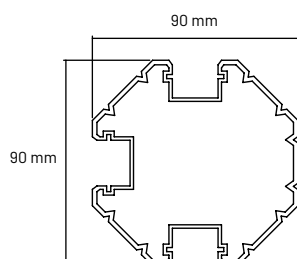

POSTS:

Evolver offers both a square and octagonal post, which accommodates the most simple to the most complex angled yards and spaces. Unlike traditional square posts, octagonal posts allow for easy installation when a 45 degree angle is needed.

Aluminium square post

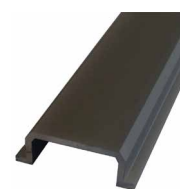

Aluminium octagonal post

OTHER COMPONENTS:

45° aluminium
directional converter

Aluminium sliding
post cover

Aluminium intermediate
structural decorative beam

Aluminium top rail

Aluminium bottom rail

Polymer post caps

By using Evolver octagonal posts several angles can be achieved - useful for oddly shaped yards and spaces.

Aluminium framework available in:

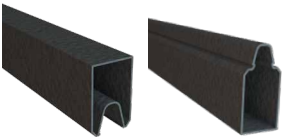

Polymer post caps also available in black finish.

EVOLVER PACK SETS

The Evolver fencing system is built using various components, allowing you the flexibility in design and application, while still making it easy and convenient to choose the required components to complete your fencing project. Below sets are everything you will need to make up a standard or customised Evolver fence.

Note: Essential components are needed to complete a standard Evolver fence.

Optional components enable diverse style options and extra fence customization.

PACK	IMAGE	DESCRIPTION	CONTENTS
A	 Octagonal Mount Square Mount	POST MOUNT Square or octagonal You will only require post mounts if you are installing the product onto a concrete slab or any other solid base surface. The post mount is bolted to the ground and your posts fit onto the post mount. Optional component: Necessary for fence mounted onto concrete or a solid surface.	Pack includes: x1 Post Mount
B	 Octagonal Post Square Post	POST SET Square or octagonal Choose which fence post you will be using, as this will guide the balance of your component choices for that system. Preferred installation method is to embed the post following local building codes. Available lengths: 1495mm, 1850mm and 2445mm Essential component: Each section of Evolver must start and end with a post.	Pack includes: x1 Post x1 Post Cap x1 Sliding Post Cover x1 Bottom Rail Support
C	 Top Rail Bottom Rail	RAIL SET The rail set contains a bottom (tongue) & top (grooved) rail are essential components and need to be installed on each fence section for fence boards to be installed effectively. Essential component: Each section of Evolver requires a tongue and groove top (grooved) and bottom (tongue) rail.	Pack includes: x1 Bottom Rail x1 Top Rail x1 Fixing Clip and Stainless Steel Cross Head Screws
D		BOARD SET The board set contains 4 composite boards which slide into your posts to make your fence panel. Eight boards (2 Board Sets D) make up a standard fence unit. Essential component: Each Evolver board has a tongue and groove. This allows for easy installation and rigidity.	Pack includes: x4 Composite Boards
E	 Aluminium intermediate structural decorative beam	INTERMEDIATE RAIL SET The Intermediate Rail set contains 7 rails which sit between your composite boards. These are not required, but rather offer a different aesthetic option. Depending on the number of composite fence boards per fence panel, you would need one intermediate rail between each of the composite boards. One set of 7 would cover a standard fence of 8 composite boards. Optional component: Dividers used between composite boards for a varied aesthetic. Needed for the Reinforced and Decorative style options.	Pack includes: x7 Intermediate Rails
F	 Aluminium directional converter	DIRECTION CONVERSION SET The Direction Conversion kit contains one unit, that can be attached to the post giving you the ability to change the direction of the fence should the existing grooves not be at the correct angle. Optional component: The Direction Conversion Set is utilized when a 45 degree angle corner is required.	Pack includes: x1 Directional Converter x8 Cross Head Screws x1 Sliding Post Cover

EVOLVER
THE EVOLUTION OF FENCING

EVOLVER FENCE ACCESSORIES

ALUMINIUM SLIDING POST COVERS

Post cover packs sold in box of 2. Aluminium post covers are used for closing open post slots.

ALUMINIUM SPACERS

Spacers available in packs of 35. Spacers are used between your composite boards should you not want a fully closed fence panel, but rather small gaps between each board. They are positioned at various points along the length of the fence boards.

OCTAGONAL PLASTIC POST CAPS

This is an additional octagonal post cap and can be bought separately. Each post comes with a post cap, but if you cut the posts to make two shorter posts (for example to create a top of the wall privacy fence), you would then need to purchase additional post caps to complete the installation.

SQUARE PLASTIC POST CAPS

This is an additional square post cap and can be bought separately. Each post comes with a post cap, but if you cut the posts to make two shorter posts (for example to create a top of the wall privacy fence), you would then need to purchase additional post caps to complete the installation.

EVOLVER GATES

The Evolver fencing system would not be complete without the Evolver Gate Kit. Evolver now offers a 1m wide gate with hinges, gate latch and a door stop included in the kit. This new kit allows for convenient and easy access to your fenced area. For wider applications, utilizing two (2) gate kits for a 1820 mm wide double gate.

Sizes: 1.8m high gate with 1m panel width

EVOLVER CONFIGURATIONS

Evolver can be installed in multiple attractive styles and configurations, each with their own benefits.

Privacy

The privacy option is the standard installation with each tongue and groove board placed on top of each other for complete privacy.

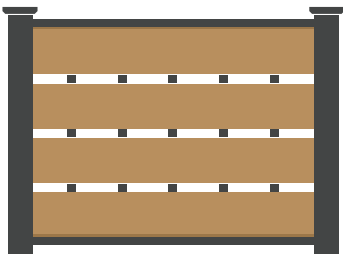

- B** POST SET
- C** RAIL SET
- D** BOARD SET

Decorative

The Decorative option incorporates the aluminium intermediate rail. This rail helps to reinforce the fence system and can be placed at any level in the fence for easy customisation of the Decorative configuration.

- B** POST SET
- C** RAIL SET
- D** BOARD SET
- E** INTERMEDIATE RAIL SET

Semi-private

Aluminium Spacers are utilised in creating the Semi-Privacy option, which allows for air flow as well as partial visibility of your surroundings. The spacers come in packs of 35 to fit one full fence panel of 8 boards.

- B** POST SET
- C** RAIL SET
- D** BOARD SET
- ALUMINUM SPACERS PACK

Reinforced

The Reinforced option has a tongue and groove intermediate rail that is placed between composite boards and adds additional rigidity and strength. This rail is available to be ordered as an accessory which is the same length as the board for easy installation.

- B** POST SET
- C** RAIL SET
- D** BOARD SET
- E** INTERMEDIATE RAIL SET

COMPOSITE PROFILE OPTIONS

Evolver fence is available in three beautiful and hardy composite profile options: Eva-tech, Infinity and Apex, each with their own unique colour range, benefits and warranty.

LOW ENVIRONMENTAL IMPACT

Holistically sustainable manufacturing & use of raw materials

CHOOSE SUSTAINABLE BUILDING MATERIALS

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Every Eva-Last outdoor range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No treatment or toxic chemicals required for maintenance
- Solar power used in the manufacturing process
- Reduced impact on landfills
- Reduced carbon footprint
