HULK FASTENERS.

RELIABLE DECKING FASTENER SYSTEMS

HULK Fasteners are purposefully designed to make composite or timber decking installations more efficient and straightforward by providing highly durable hidden fastener options that fit neatly into the edges of grooved boards, as well as a range of colour matching top fixing screws. These fasteners are created to match the warranties of the leading composite decking boards on the market, and are available in a range of colours to complement the look of your decking of choice.

DESIGNED FOR PROFESSIONALS. PERFECT FOR NOVICES.

HULK Fasteners offer higher performance and are a more efficient and subtle way to secure your decking and trim boards without disrupting its final look.

HULK Fasteners hidden clips

Eva-Last recommends HULK Fasteners decking clips to provide a reliable long-lasting hold for composite decking boards. Both the S-Series (S6 and S9) and Chain hidden clip systems by HULK provide a neat and discreet fastening option for a flawless finished surface. Packs and starter kits include a drill bit and one screw per clip.

S-Series Clip & Screw

Chain Clip & Screw

HULK composite top fixing screws

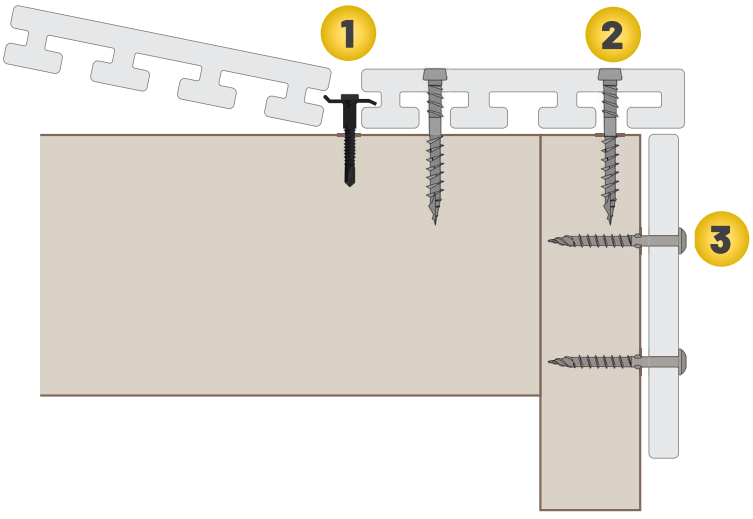

Colour matching composite decking and trim screws are used for top fixing non-grooved and fascia or deck trim profiles to metal or timber frames, providing an invisible finish.

TAKE HOME THE BENEFITS

- Corrosion Resistant
- Colour Matched Aesthetic
- Neat Surface Finish
- Fast and Easy Installation
- **No Pre-drilling Required***
  *Refer to the Installation Guides

1. Hidden Clip & Clip Screw
   (S6 & S9 Clips or Chain Collated Clips)
2. Composite Decking Screw (CDS)
   for timber frames or Metal Decking
   Screw (MDS) for metal frames
3. Composite Trim Screw for
   timber frames or Metal Trim Screw
   for metal frames

For more information on HULK Fasteners visit www.eva-last.com

S-SERIES CLIP

Eva-Last created the S-Series (Halo) clip in 2010, designed to match the life expectancy and durability of Eva-Last composite decking materials. This product laid the foundation for the hidden fastener: no more protruding screws, no more ruined finishes, no more untidy aesthetics.

S-SERIES HIDDEN DECKING CLIPS

S6 CLIP

Use for fastening grooved deck boards with a foot height of approximately 6 mm; compatible with metal and timber clip screws

S9 CLIP

Use for fastening grooved deck boards with a foot height of approximately 9 mm; compatible with metal and timber clip screws

CLIP SCREWS

METAL CLIP SCREW

Designed to fasten HULK hidden deck clips onto metal frames without having to pre-drill (on metal frames 2 mm thick or less)

CS CARBON STEEL C1022

COMPATIBLE WITH S-SERIES CLIP AND USED WITH CHAIN COLLATED CLIP

TIMBER CLIP SCREW

For fastening HULK hidden deck clips onto timber frames without having to pre-drill

SS STAINLESS STEEL SS316

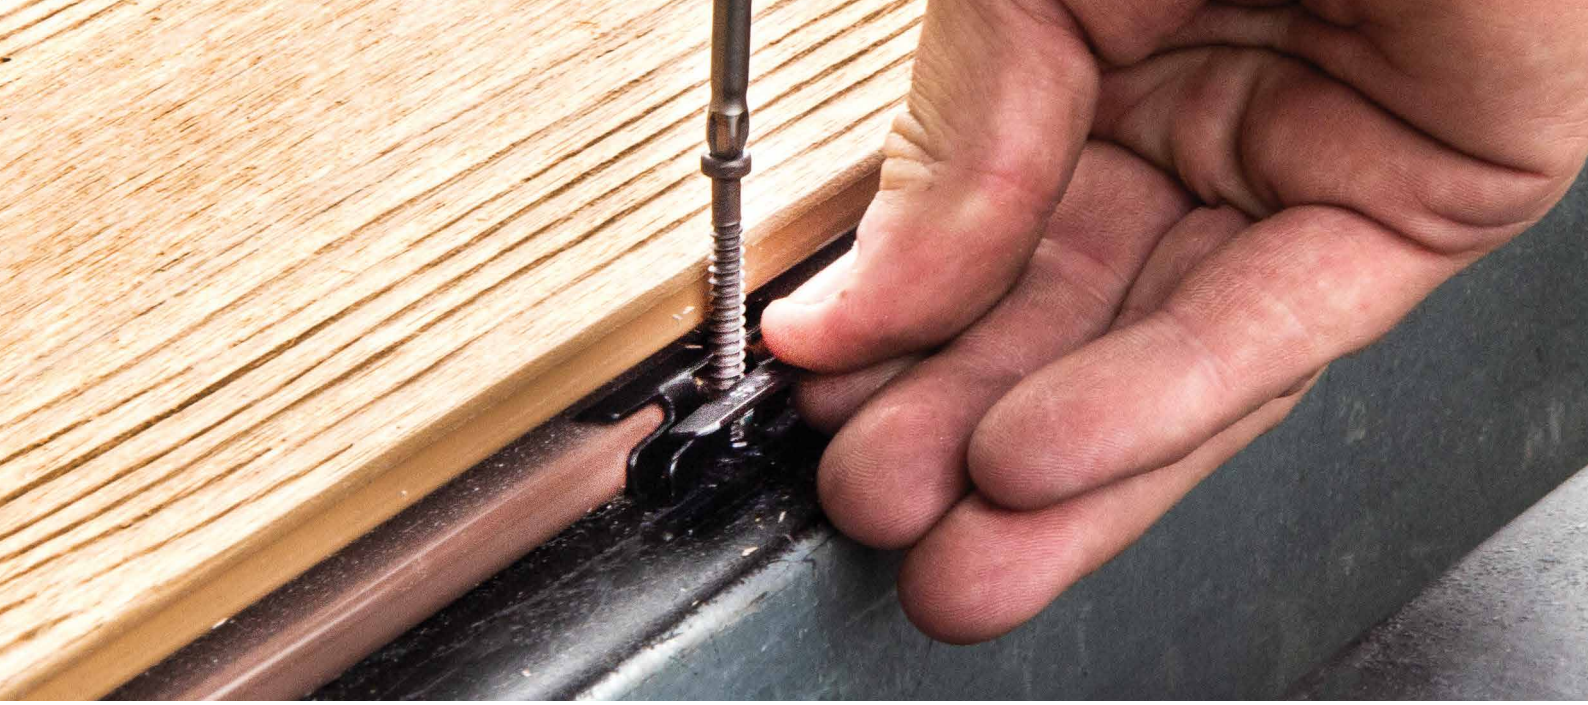

CS CARBON STEEL C1022

COMPATIBLE WITH S-SERIES CLIP AND USED WITH CHAIN COLLATED CLIP

Key features of HULK hidden clip screws:

1. The pan head works perfectly with HULK clips (S-Series and Chain collated clip).
2. The flat bottom shape of the screw is designed to rest securely on top of the HULK clips, preventing movement and damage.
3. The thread and shaft work seamlessly with the substructure and HULK clip.
4. The tip of the clip screws and top fixing screws are the same, making them highly versatile.
5. Both HULK clips and clip screws are dark in colour, camouflaging them between deck boards.

COLOUR MATCHED COMPOSITE TOP FIXING SCREWS

HULK Fasteners composite deck and trim screws are available in nine different colours designed to match and blend in with decking boards from all leading composite decking manufacturers. Choose the colour that matches your decking boards for a discreet final look. Please check your regional availability of screw colours.

FOR TIMBER FRAMES

Available in stainless steel and carbon steel

FOR METAL FRAMES

Available in carbon steel

COMPOSITE DECKING SCREWS

CDS - Composite Deck Screw

For fastening (top-fixing) composite boards to timber frames

Carbon steel: fully coated
Available in dark brown, light brown, brown,
red brown, tan brown, beige, dark grey, light grey, and white

316 Stainless Steel with only the head coated
Available in dark brown, light brown, brown,
red brown, tan brown, beige, dark grey, light grey, and white

MDS - Metal Deck Screw

For fastening (top-fixing) composite boards to metal frames

Carbon: 2 000 hour coating
Available in dark brown, light brown, brown,
red brown, tan brown, beige, dark grey, light grey,
and white

75 COMPOSITE DECK SCREWS (for timber or metal frames)

75 Pack TOP FIXING SCREWS

75 carbon steel or stainless steel composite deck screws

1 drill bit

HULK Fasteners are recommended for use with all Eva-Last installations. HULK composite deck and trim screws are available for timber and metal frames.

150 COMPOSITE DECK SCREWS (for timber or metal frames)

150 Pack TOP FIXING SCREWS

150 carbon steel or stainless steel composite deck screws

1 drill bit

HULK Fasteners are recommended for use with all Eva-Last installations. HULK composite deck and trim screws are available for timber and metal frames.

COLOUR MATCHED COMPOSITE TRIM SCREWS

HULK Fasteners trim screws are specially engineered to fasten composite trim boards or fascia boards to a structure. Choose between the composite trim screws designed to work with timber substructures and composite trim screws created to work with metal substructures. Each type of trim screw offers unique dimensions for use with either wood or metal framing, but both types of trim screws are available in stainless steel and carbon steel and in a wide range of colours to match your composite fascia or trim boards.

FOR TIMBER FRAMES

Available in stainless steel and carbon steel

FOR METAL FRAMES

Available in carbon steel

COMPOSITE TRIM SCREWS

M5.5 x 48 mm composite trim screws
for use with timber frames

M5.5 x 35 mm composite trim screws
for use with metal frames

75 COMPOSITE TRIM SCREWS (for timber or metal frames)

75 Pack TOP FIXING SCREWS

75 carbon steel or stainless steel composite trim screws

1 drill bit

HULK Fasteners are recommended for use with all Eva-Last installations. HULK composite deck and trim screws are available for timber and metal frames.

150 COMPOSITE TRIM SCREWS (for timber or metal frames)

150 Pack TOP FIXING SCREWS

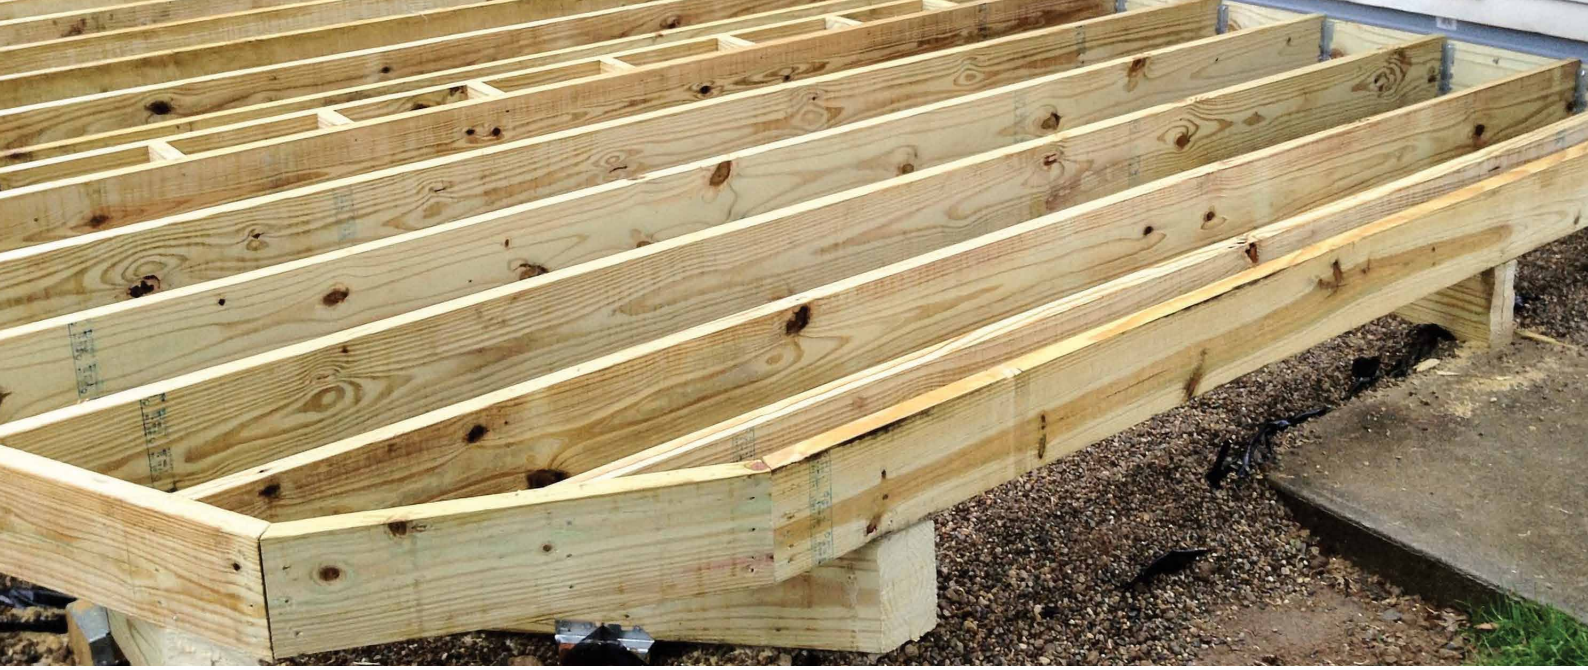

150 carbon steel or stainless steel composite trim screws

1 drill bit

HULK Fasteners are recommended for use with all Eva-Last installations. HULK composite deck and trim screws are available for timber and metal frames.

TIMBER FRAME SCREWS FOR WOOD STRUCTURES

HULK Fasteners timber frame screws are specially designed for fastening timber frames by creating a secure hold between timber joists, timber joists to timber ledger boards, or timber joists to timber cross beams. The timber frame screw is available in two sizes to suit your specific project.

Timber frame screw

Carbon: Zinc epoxy coated 2 000 hours
80 mm and 100 mm
Available in golden colour to match yellow softwoods and provide optimal corrosion resistance

100 TIMBER FRAME SCREWS (for timber frames)

100 Pack TIMBER FRAME SCREWS

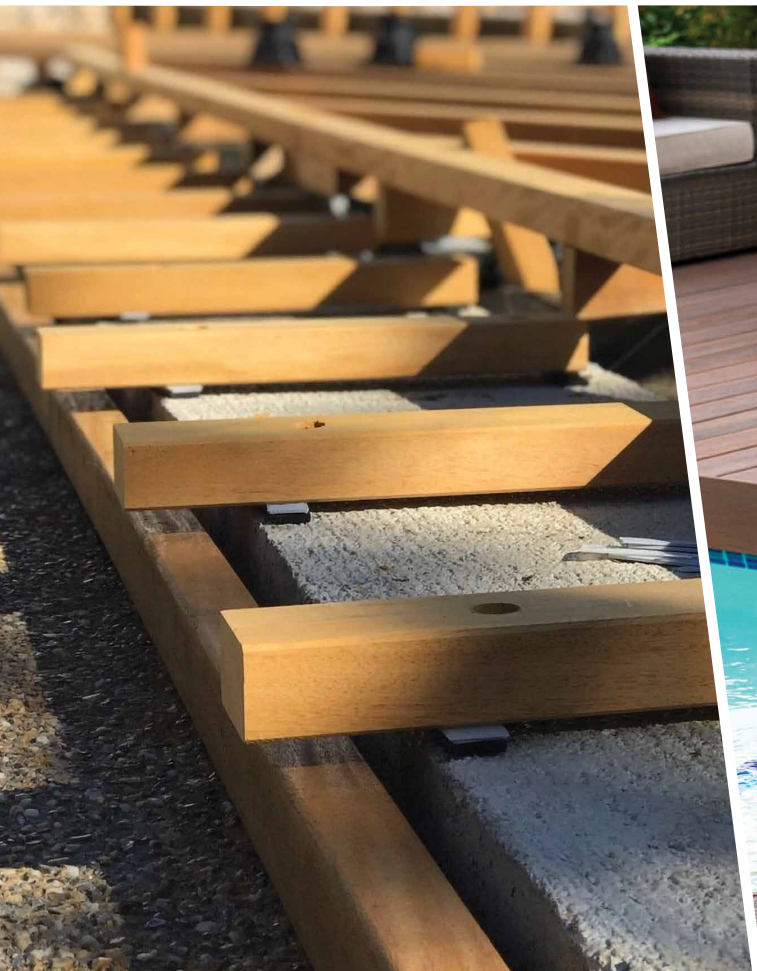

100 timber frame screws
1 T30 drill bit

HULK Fasteners are recommended for use with all Eva-Last installations. HULK timber frame screws are available for timber frames.

chain
Collated decking clip

COLLATED HIDDEN DECK CLIPS

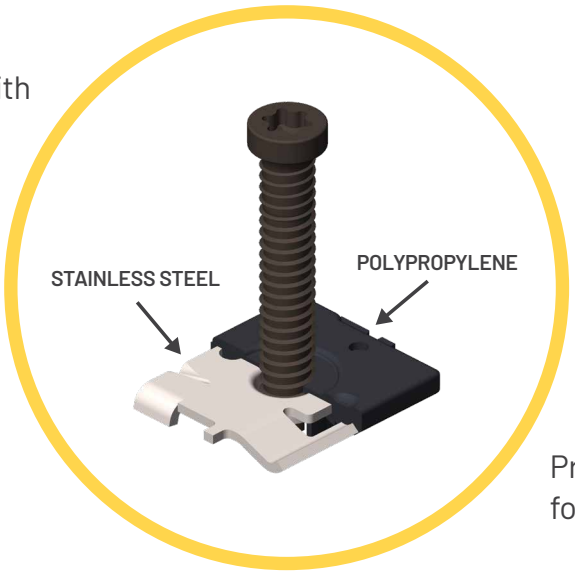

Chain collated clips are innovatively engineered to work with composite or timber boards of varying thickness and with timber or metal frames for a more cost-effective and efficient installation. Chain offers superior durability and strength, a discreet appearance, and easier post-installation access and board removal.

A PRODUCT BY HULK FASTENERS.

GET THE JOB DONE FASTER.

Chain collated clips save you time and money by streamlining installation with pre-loaded screws that offer cutting-edge performance for the entire lifespan of your deck. Enjoy a simpler installation and a more secure long-term fastener that complements the overall look of your deck.

Stainless steel clip with polymer coating

Pre-loaded with screw for ease of installation

FEATURES AND BENEFITS

MORE EFFICIENT INSTALLATION
Collated system comes pre-loaded with screws for quicker installation

UNIVERSAL APPLICATION
Works with timber & composite boards of variable thickness & groove depths

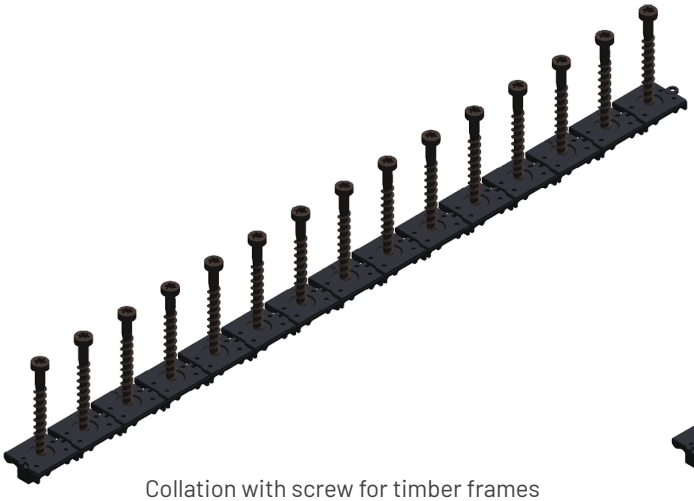

DURABLE
Stainless steel clip with a protective polymer coating for extended outdoor longevity

STRENGTH IN SIZE
Proven strength in uplift holding power & preventing lateral movement of boards

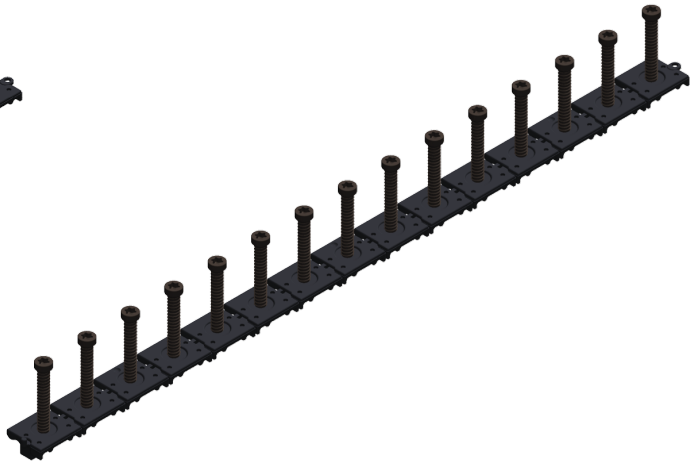

INNOVATIVE ENGINEERING
Cost-effective use of materials without affecting grip strength or overall clip performance

EASIER POST-INSTALLATION ACCESS
More convenient post-installation board removal with direct overhead fastener access

Collation with screw for timber frames

Collation with screw for metal frames

CHAIN COLLATED CLIPS

Chain collated clips offer a smarter solution for creating an outdoor oasis. By preloading high quality and durable screws into equally reliable clips. Chain collated clips make installation more efficient, and are suitable for use by professionals or novices. Like all Eva-Last products, Chain collated clips are built on the principle of longevity.

CHAIN PACKS

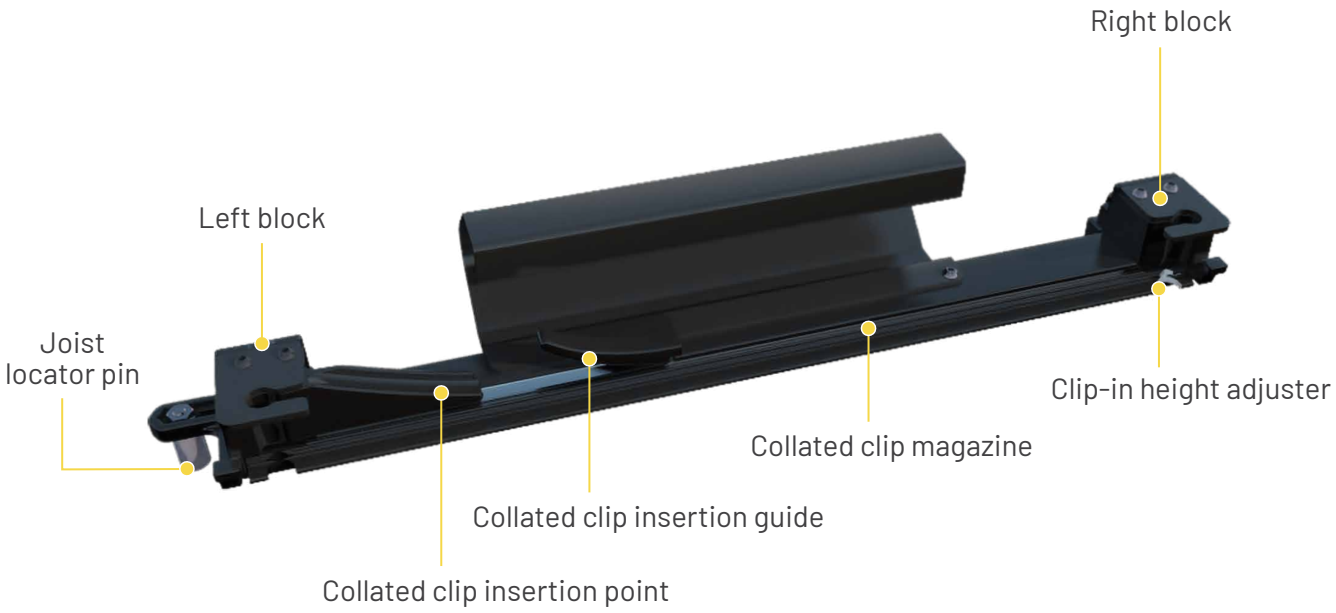

150 Chain COLLATED CLIPS	900 Chain COLLATED CLIPS
150 clips per box	Six boxes in a pack; 150 clips per box

COLLATED CLIP HAND TOOL

CHAIN HAND TOOL

The Chain hand tool adds value to the Chain collated clip system by making installations quicker and more efficient thanks to its pre-inserted screws as well as its adjustable joist locating pin and depth-stopping bit which improve screw tension and make joist alignment easier. Its ambidextrous design suits both left- and right-hand users. The hand tool offers smooth collation insertion for convenient usage and is compatible with a wide range of deck board grooves and joist widths.

HAND TOOL

1 Chain HAND TOOL

1 collated clip hand tool
1 T15 (50 mm) depth setting bit
(Bit also sold separately)

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Every Eva-Last outdoor range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- *Made from recycled materials*
- *No trees felled*
- *No treatment or toxic chemicals required for maintenance*
- *Solar power used in the manufacturing process*
- *Reduced impact on landfills*
- *Reduced carbon footprint*
