

The background of the advertisement is a photograph of a wooden deck surface. On the left, a yellow and black power drill is partially visible. In the center, several screws of different colors (silver, black, and tan) are scattered on the wood. Above the screws, three black plastic clips are laid out. On the right, a large, partially torn bag of Hulk Fasteners is visible, with the brand name and 'RESEALABLE BAG' printed on it. The top of the image has a dark grey overlay containing the Hulk Fasteners logo and the text 'FASTENERS.'

**RELIABLE DECKING  
FASTENER SYSTEMS**

# **HULK FASTENERS.**

## **RELIABLE DECKING FASTENER SYSTEMS**

HULK Fasteners are purposefully designed to make composite or timber decking installations more efficient and straightforward by providing highly durable hidden fastener options that fit neatly into the edges of grooved boards, as well as a range of colour matching top fixing screws. These fasteners are created to match the warranties of the leading composite decking boards on the market, and are available in a range of colours to complement the look of your decking of choice.

## **DESIGNED FOR PROFESSIONALS. PERFECT FOR NOVICES.**

HULK Fasteners offer higher performance and are a more efficient and subtle way to secure your decking and trim boards without disrupting its final look.

### **HULK Fasteners hidden clips**

Eva-Last recommends HULK Fasteners decking clips to provide a reliable long-lasting hold for composite decking boards. Both the S-Series (S6 and S9) and Chain hidden clip systems by HULK provide a neat and discreet fastening option for a flawless finished surface. Packs and starter kits include a drill bit and one screw per clip.

S-Series Clip & Screw

Chain Clip & Screw

### **HULK composite top fixing screws**

Colour matching composite decking and trim screws are used for top fixing non-grooved and fascia or deck trim profiles to metal or timber frames, providing an invisible finish.

# S-SERIES CLIP

Eva-Last created the S-Series (Halo) clip in 2010, designed to match the life expectancy and durability of Eva-Last composite decking materials. This product laid the foundation for the hidden fastener: no more protruding screws, no more ruined finishes, no more untidy aesthetics.

## S-SERIES HIDDEN DECKING CLIPS

### S6 CLIP

Use for fastening grooved deck boards with a foot height of approximately 6 mm; compatible with metal and timber clip screws

## CLIP SCREWS

### METAL CLIP SCREW

Designed to fasten HULK hidden deck clips onto metal frames without having to pre-drill (on metal frames 2 mm thick or less)

CS

CARBON STEEL  
C1022

COMPATIBLE WITH S-SERIES  
CLIP AND USED WITH CHAIN  
COLLATED CLIP

### TIMBER CLIP SCREW

For fastening HULK hidden deck clips onto timber frames without having to pre-drill

SS

STAINLESS STEEL  
SS316

CS

CARBON STEEL  
C1022

COMPATIBLE WITH S-SERIES  
CLIP AND USED WITH CHAIN  
COLLATED CLIP

### Key features of HULK hidden clip screws:

1. The pan head works perfectly with HULK clips (Chain collated clips and S-series).
2. The flat bottom shape of the screw is designed to rest securely on top of the HULK clips, preventing movement and damage.
3. The thread and shaft work seamlessly with the substructure and HULK clip.
4. The tip of the clip screws and top fixing screws are the same, making them highly versatile.
5. Both HULK clips and clip screws are dark in colour, camouflaging them between deck boards.

## COLOUR MATCHED COMPOSITE TOP FIXING SCREWS

HULK Fasteners composite deck and trim screws are available in nine different colours designed to match and blend in with decking boards from all leading composite decking manufacturers. Choose the colour that matches your decking boards for a discreet final look. Please check your regional availability of screw colours.

### FOR TIMBER FRAMES

Available in stainless steel and carbon steel

DARK BROWN

BROWN

TAN BROWN

BEIGE

LIGHT GREY

DARK GREY

### FOR METAL FRAMES

Available in carbon steel

## COMPOSITE DECKING SCREWS

### CDS - Composite Deck Screw

For fastening (top-fixing) composite boards to timber frames

Carbon steel: fully coated

316 Stainless Steel with only the head coated

### MDS - Metal Deck Screw

For fastening (top-fixing) composite boards to metal frames

Carbon: 2 000 hour coating

## 75 COMPOSITE DECK SCREWS (for timber or metal frames)

### 75 Pack TOP FIXING SCREWS

75 carbon steel or stainless steel composite deck screws

1 drill bit

*HULK Fasteners are recommended for use with all Eva-Last installations. HULK composite deck and trim screws are available for timber and metal frames.*

# COLOUR MATCHED COMPOSITE TRIM SCREWS

HULK Fasteners trim screws are specially engineered to fasten composite trim boards or fascia boards to a structure. Choose between the composite trim screws designed to work with timber substructures and composite trim screws created to work with metal substructures. Each type of trim screw offers unique dimensions for use with either wood or metal framing, but both types of trim screws are available in stainless steel and carbon steel and in a wide range of colours to match your composite fascia or trim boards.

## FOR TIMBER FRAMES

Available in stainless steel and carbon steel

- DARK BROWN
- BROWN
- TAN
- BEIGE
- LIGHT GREY
- DARK GREY

## FOR METAL FRAMES

Available in carbon steel

# COMPOSITE TRIM SCREWS

M5.5 x 48 mm composite trim screws  
for use with timber frames

M5.5 x 35 mm composite trim screws  
for use with metal frames

## 75 COMPOSITE TRIM SCREWS (for timber or metal frames)

### 75 Pack TOP FIXING SCREWS

75 carbon steel or stainless steel composite trim screws

1 drill bit

HULK Fasteners are recommended for use with all Eva-Last installations. HULK composite deck and trim screws are available for timber and metal frames.

## TIMBER FRAME SCREWS FOR WOOD STRUCTURES

HULK Fasteners timber frame screws are specially designed for fastening timber frames by creating a secure hold between timber joists, timber joists to timber ledger boards, or timber joists to timber cross beams. The timber frame screw is available in two sizes to suit your specific project.

### Timber frame screw

Carbon: Zinc epoxy coated 2 000 hours  
80 mm and 100 mm

Available in golden colour to match yellow softwoods and provide optimal corrosion resistance

### 100 TIMBER FRAME SCREWS (for timber frames)

#### 100 Pack TIMBER FRAME SCREWS

100 timber frame screws

1 T30 drill bit

HULK Fasteners are recommended for use with all Eva-Last installations. HULK timber frame screws are available for timber frames.

# I-SERIES FASTENING INSERT

Reinforced fixing insert for optimised I-Series boards

## PRODUCT OVERVIEW

The I-Series Fastening Insert is a purpose-designed insert developed for selected optimised I-Series board profiles. While most I-Series installations utilise hidden clip systems and starter boards, some applications may utilise direct top-fixing for edge details, stairs, repairs, or custom installation conditions. The insert provides an optional reinforced fixing interface while maintaining the lightweight and material-efficient geometry of the board.

## PRODUCT PROFILES

The I-Series Fastening Insert is a purpose-designed insert developed for selected I-Series board profiles.

Scan here for usage guide

# COMPATIBLE I-SERIES PROFILES

Compatible with the following boards:

**Infinity** *IS*

## LIGHTER WEIGHT, CAPPED BAMBOO COMPOSITE

Grooved Board - 134.1 x 25.4 mm  
Starter Board - 134.1 x 25.4 mm

**Eva-tech**

## BAMBOO COMPOSITE TECHNOLOGY

Grooved Board - 139 x 23.4 mm  
Grooved Board - 139 x 23.4 mm

## INSTALLATION PROCESS

### STEP 1

Turn the board upside down and slide insert into the cavity between the I-Series feet of the board. The insert should be positioned to align with the centre of your joist, at all points where you are top fixing through the board.

### STEP 2

Flip your board over and check that the insert is correctly aligned with our fixing point on your joist.

### STEP 3

Fasten your board through the inserts using approved metal or composite deck screws. On the grooved edge, you can continue using the concealed clips.
