LIGHTER WEIGHT, CAPPED BAMBOO COMPOSITE DECKING

Infinity IS combines all the benefits of Infinity bamboo composite with the advantages of I-Series to give you a durable co-extruded composite. With Infinity IS specialised streaked colour variation technology, you can enjoy the look of timber and the environmental benefits of bamboo composite. The newly optimised I-beam design creates a highly cost-effective board that uses less material yet maintains the performance and longevity we have come to expect from Infinity bamboo composite. The lighter weight of this optimised profile assists with a more efficient transportation and installation.

PRODUCT COMPOSITION

Enhanced Durability & Colour-Streaking Technology

Infinity's ultra-durable co-extruded bamboo composite technology blends form and function, featuring resilient polymer capping engineered to withstand the elements and enhanced with advanced colour-streaking technology for a more natural wood-like appearance.

Capping material:
Engineered polymer

Core material:
Bamboo PE composite

Compatible with the I-series fastening insert.

TAKE HOME THE BENEFITS

DURABLE

One of the toughest co-extruded composites

PROTECTIVE CAP

Fade, scratch, & stain resistant capping technology

LOW-MAINTENANCE

Only basic care required for optimal longevity

DECAY RESISTANT

Resists insects, moisture & weather

NATURAL LOOK

Specialised streaked colour technology

INFINITY IS ADDED BENEFITS

Infinity IS bamboo composite decking adds value to your outdoor space and your lifestyle by giving you steadfast decking in a smarter, optimised design.

COST-EFFECTIVE

Smart shape saves on transport & installation

LIGHTWEIGHT

I-beam design is lighter by using less material

OPTIMISED DESIGN

Lighter weight profile maintains strength & performance

INSTALLATION

Easier and more efficient installation

ECO-FRIENDLY

Sustainable manufacturing & use of raw material

LIGHTER WEIGHT, CAPPED BAMBOO COMPOSITE DECKING

134 x 25.4 mm

SCULPTED
GRAIN FINISH

Grooved board

GROOVED BOARD

The exceptionally lightweight Infinity IS single sided grooved board installs efficiently and securely with HULK hidden fastener clips which slot into the grooves along the edges of the board and create a neat uninterrupted final look.

Dimensions	134 x 25.4 mm
Weight	2.4 kg/m
Recommended residential joist spacing	500 mm centre to centre* *Please refer to the technical documents for more information on spans and loads.

Fasteners

Grooved edge fasteners
Compatible with Chain collated clip and screw

134 x 25.4 mm

SCULPTED
GRAIN FINISH

Starter board

STARTER BOARD

The exceptionally lightweight Infinity IS single sided starter deck board offers one grooved edge and one solid edge, making it perfect for deck perimeters, picture framing decks, and creating stair edges. It fastens with a combination of HULK hidden fasteners and colour matched HULK composite decking screws.

Dimensions	134 x 25.4 mm
Weight	2.4 kg/m
Recommended residential joist spacing	500 mm centre to centre* *Please refer to the technical documents for more information on spans and loads.

Fasteners

Grooved edge fasteners
Compatible with Chain collated clip and screw

Square edge fasteners
Uses HULK composite top fixing screws

LOW ENVIRONMENTAL IMPACT

Sustainable manufacturing & use of raw material

CHOOSE SUSTAINABLE BUILDING MATERIALS

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Every Eva-Last outdoor range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No treatment or toxic chemicals required for maintenance
- Solar power used in the manufacturing process
- Reduced impact on landfills
- Reduced carbon footprint
