REPLICATED HARDWOODS IN A REINFORCED BAMBOO PVC COMPOSITE

Pioneer composite charts new territory with ground-breaking high-resolution digital replications which perfectly capture the look of endangered and regional timber. This advanced surface technology elevates the look of your outdoor space without jeopardising the health of our forests. Pioneer's smart composition combines the strength of sustainable bamboo with low-maintenance foamed-PVC for a more liveable, more workable, long-term product. Bring home the high-end look of these rare woods in a more sustainable, long-lasting, and effective reinforced bamboo composite option. Enjoy a new frontier of design freedom and durability.

TAKE HOME THE BENEFITS

REALISTIC AESTHETIC

Indistinguishable from real hardwood thanks to advanced replication processes

ECO-FRIENDLY

Preserves our forests by capturing the beauty of hardwoods without felling

ATTAINABLE LUXURY

The look of exquisite exotic hardwood in convenient composite

INCREASED SPAN

Reinforced for improved strength & span capability

MORE STABLE

Less movement from expansion & contraction

WEAR LAYER

Wear layer offers protection against stains, scratches, & fading

DECAY RESISTANT

Long-lasting & resists insects, moisture, & weather

LOW-MAINTENANCE

Enhanced surface for easy cleaning & optimal longevity

Pioneer

PIONEER PROFILE TYPES

AVAILABLE ON SPECIAL ORDER

Pioneer reinforced bamboo foamed-PVC composite can be used as stunning outdoor decking or as open joint cladding in wall applications. Decking profiles are available in a 145 mm width (grooved and square edge), and a 145 mm width. Fascia boards are available in a 150 mm width for use as trim or other accents. All boards can be cut using standard tools. CHAIN collated clips are designed for use with the grooved edges, while HULK colour matching top fixing screws are made for use with non-grooved edges and fascia boards.

Grooved board

145 x 21 mm and 190 x 21 mm

Starter board

145 x 21 mm

Square edge board

145 x 21 mm

Fascia board

150 x 12 mm

Featured: **Pioneer, Spotted Gum**
Single sided grooved and square edge decking

REPLICATED HARDWOODS IN A REINFORCED BAMBOO PVC COMPOSITE

145 x 21 mm

AVAILABLE ON SPECIAL ORDER

Grooved board

GFR / GLASS FIBER REINFORCED

GROOVED BOARD

The Pioneer single sided grooved board is available in a range of profiles and widths. It is reinforced and offers a flawless, fastener-free final look thanks to grooves along its edges which are designed for streamlined installation using CHAIN collated clips.

Dimensions	145 x 21 mm
Weight	2.2 kg/m
Recommended residential joist spacing	500 mm centre to centre* *Please refer to the technical documents for more information on spans and loads.

Fasteners

Grooved edge fasteners

Compatible with Chain collated clip and screw

145 x 21 mm

AVAILABLE ON SPECIAL ORDER

Starter board

GFR / GLASS FIBER REINFORCED

STARTER BOARD

The Pioneer single sided starter board is ideal for creating a picture frame effect for decks and for use on stairs edges. It simplifies installation by offering one solid square outside edge and one grooved edge. Install using CHAIN collated clips on the grooved edge and HULK colour matching deck composite screws on the square edge.

Dimensions	145 x 21 mm
Weight	2.3 kg/m
Recommended residential joist spacing	500 mm centre to centre* *Please refer to the technical documents for more information on spans and loads.

Fasteners

Grooved edge fasteners

Compatible with Chain collated clip and screw

Square edge fasteners

Uses HULK composite top fixing screws

Pioneer

REPLICATED HARDWOODS IN A REINFORCED BAMBOO PVC COMPOSITE

151 x 12.5 mm

AVAILABLE ON SPECIAL ORDER

Fascia board

FASCIA BOARD

Pioneer single sided fascia boards are designed for use as decking trim, cladding, or other decorative applications. They are non-load bearing profiles which add a neat finish to deck edges and are fastened using colour matching HULK composite trim screws.

Dimensions	151 x 12.5 mm
Weight	1.4 kg/m
Span	300 mm*

**Based on non-load bearing applications only*

Fasteners

Fascia trim fasteners

Uses HULK composite trim screws

Featured: **Pioneer, Eucalyptus**
Single sided grooved and square edge decking

PIONEER COLOUR GUIDE

AVAILABLE ON SPECIAL ORDER

The Pioneer colour range celebrates the beauty of timber with composite indistinguishable from prized exotic hardwood. Pioneer offers state-of-the-art high-resolution digital replications of timber to give each board an unrepeated realistic wood grain texture. This technology mirrors the hues and tones of specific timber types to create the most natural looking composite ever made.

NOTE: Due to printing and/or screen variations, colours in the brochure may differ slightly from the actual products.

LOW ENVIRONMENTAL IMPACT

Sustainable manufacturing & use of raw material

The mark of responsible forestry

CHOOSE SUSTAINABLE BUILDING MATERIALS

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Every Eva-Last outdoor range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No treatment or toxic chemicals required for maintenance
- Solar power used in the manufacturing process
- Reduced impact on landfills
- Reduced carbon footprint
