

INTEGRATED COMPOSITE RAILING SYSTEMS

RAPIDRAIL

INTEGRATED RAILING SYSTEM

INTEGRATED COMPOSITE RAILING SYSTEMS

RapidRail eco-friendly composite railing offers long-lasting reliability and safety in a selection of natural colours and styles, and is designed to work with a variety of decking materials and accessories. As its name suggests, RapidRail installs rapidly and easily using smart configurations which reduce the number of connections required. Available in Infinity or Eva-tech composite technologies by Eva-Last, RapidRail offers protection from insects, moisture issues, decay, and harsh weather.

SAFER, STRONGER, STUNNING RAILING

RapidRail combines safety and artistry for a composite railing system that makes your space more functional, more secure, more appealing, and virtually maintenance free. Make your deck a truly liveable space with innovative railing that provides a strong sense of safety and promotes a more hassle-free way of life.

Specifications

Height	1180 mm

RAPIDRAIL

INTEGRATED RAILING SYSTEM

INFINITY CAPPED BAMBOO COMPOSITE RAILING

RapidRail balustrades in Infinity composite technology is available in the complete range of natural-looking Infinity colours which beautifully embody the look of traditional timber railing. Each colour is thoughtfully created with advanced colour streaking technology to allow for an impressive aesthetic appeal, complete with the subtle nuances and shades found in nature.

COLOUR RANGE: BRUSHED SOFTWOOD FINISH

TECHNOLOGY: *Infinity*

MADE TO ORDER

EVA-TECH BAMBOO COMPOSITE RAILING

RapidRail balustrade in Eva-tech composite technology is available in the classic Eva-tech colour range. Each of these colours is specifically designed to evoke the essence of a particular timber type, and each is presented in a handsome, understated matte finish.

COLOUR RANGE: BRUSHED FINISH

TECHNOLOGY: *Eva-tech*

Note: Due to printing and/or screen variations, colours in this brochure may differ from the actual products. Physical samples will be sent for colour finalisation.

LOW ENVIRONMENTAL IMPACT

Sustainable manufacturing & use of raw material

The mark of responsible forestry

CHOOSE SUSTAINABLE BUILDING MATERIALS

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Every Eva-Last outdoor range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No treatment or toxic chemicals required for maintenance
- Solar power used in the manufacturing process
- Reduced impact on landfills
- Reduced carbon footprint
