## **NATURAL AESTHETIC**

Enjoy state-of-the-art replication technology that uses real wood scans to produce each TIER Element color and prints a woodgrain texture that mirrors the authentic appearance of timber with virtually unrepeated patterns.

## **FAMILY FRIENDLY**

TIER Element provides flooring that is safer for your family and better for your overall indoor air quality. The revolutionary EcoArmor core is non-toxic and completely free of PVC, VOCs, phthalates, plasticizers, and heavy metals.

## **REMARKABLE DURABILITY**

TIER Element integrates a hardened ceramic coating into each floorboard that adds remarkable durability and superior protection against scratches, scuffs, and marks made from pets' claws, kids' play, or furniture.

## **WATERPROOF**

TIER Element sets the benchmark for the most moisture resistant core composition and prevents issues like swelling and openings between planks. Its watertight click installation system keeps spills from seeping beneath floorboards, making it ideal for moisture-prone areas like basements, bathrooms, kitchens, and laundry rooms.

**MADE

ENERGY**

**PVC-FREE**  
100% HEALTHY INDOOR FLOORING

### **EASY CLEANING**

TIER Element low-maintenance flooring maintains its look and reliability without any specialized cleaners or significant upkeep. It raises the bar on stain resistance while withstanding the long-term effects of household cleaning chemicals.

### **MINIMAL REPEAT PATTERN**

TIER Element embraces the real look of wood and can be installed up to 200 ft<sup>2</sup> without repeat patterns, far beyond industry norms, to give it the most natural look in luxury synthetic flooring.

### **QUIETER, MORE COMFORTABLE**

An innovative high-density foam IXPE underlay suppresses sound transmission throughout your indoor space and makes it softer underfoot. Built-in thermal resistance allows TIER Element to maintain its performance even in extreme temperatures.

### **SUSTAINABLE & RECYCLABLE**

TIER Element is a sustainable, fully recyclable product made with solar power that achieves the look of hardwood floors without felling a single tree. Its GREENGUARD GOLD certification signifies that it meets the highest standards for indoor air quality; non-toxic and safe enough for use in even sensitive environments.

## FLOORING THAT'S BETTER FOR YOUR HOME, YOUR HEALTH, & THE EARTH

TIER Element flooring brings an elevated look to your residential or commercial indoors while giving your family, friends, or clients a space that's free of PVC, VOCs, toxins, and chemicals that can harm their health and the environment. Enjoy more beautiful, low-maintenance floors that are longer lasting, better performing, and gentler on the Earth.

**MADE  
USING  
SOLAR  
ENERGY**

TIER Element flooring is manufactured using solar power. This greatly reduces its carbon footprint to help protect the Earth and bring you peace of mind.
