BAMBOO COMPOSITE FENCING

DISADVANTAGES AND LIMITATIONS OF TRADITIONAL WOOD FENCING

Wood fence

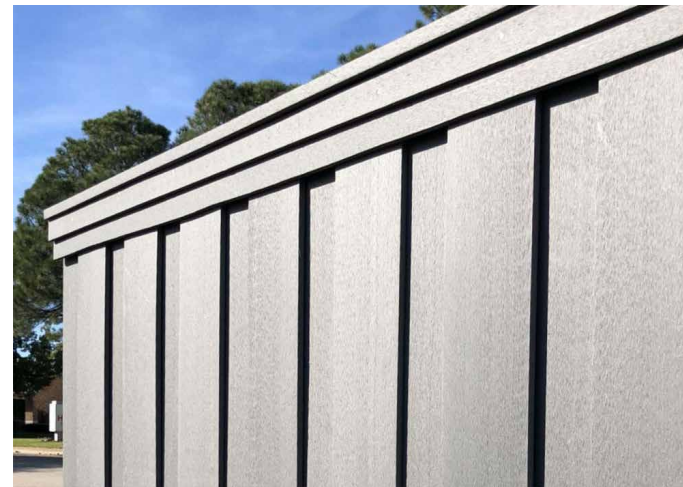

Disadvantages

- Wood has a limited life, between 5 to 10 yrs depending on level of maintenance.
- Decomposing wood is vulnerable to fungus and rot.
- Needs painting and maintenance on regular basis.
- Over time wood dries, fades, cracks and warps.
- Usually there is no warranty on wooden fence because of the nature of wood.
- Vulnerable to termite infection.

Why Oasis fencing

CREATE YOUR OWN SANCTUARY

Unlike traditional wood fencing, Oasis requires virtually no maintenance. It will look as beautiful as it did the first day it was installed. This means no staining, painting or replacing boards. Surrounding your home with a traditional wood fence can become a maintenance burden.

Surrounding it with Oasis composite fencing is a tranquil luxury.

Eva-Last® Oasis Composite Fence
Colour: Rusteak

CAREFREE COMPOSITE FENCING

Oasis composite fencing brings privacy and peace of mind to your outdoor oasis. Choose from its natural colour range and customisable style options to get the look you want. Enjoy the hassle-free lifestyle it offers thanks to its low-maintenance and weather resistant features. Feel good knowing you've chosen an eco-friendly alternative to traditional wood fencing.

INSECT RESISTANT

LOW MAINTENANCE

MOISTURE RESISTANT

FADE RESISTANT

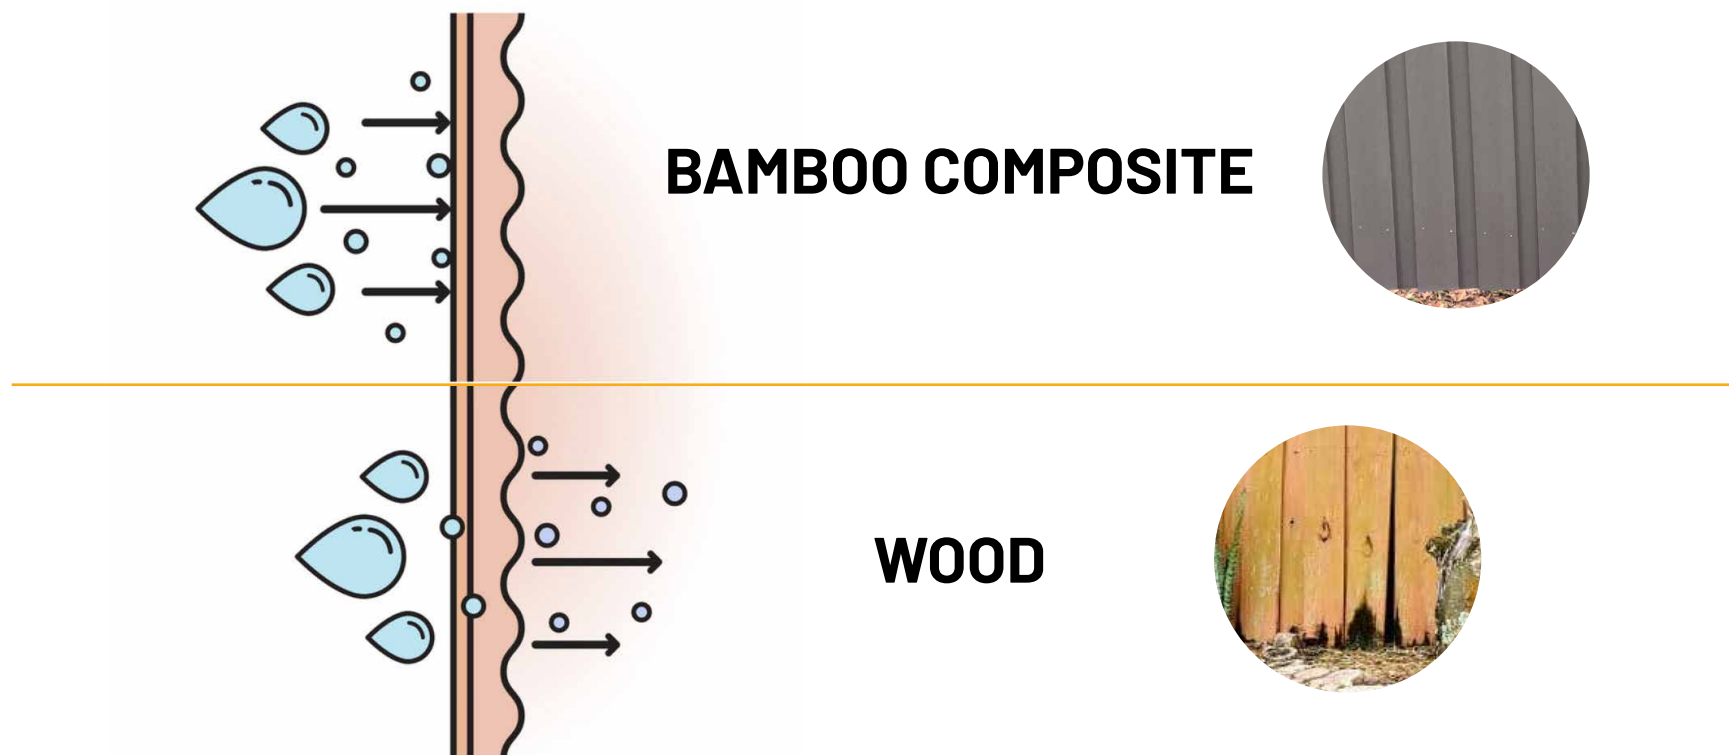

SIMPLE INSTALLATION

ECO-FRIENDLY

MOISTURE ABSORPTION

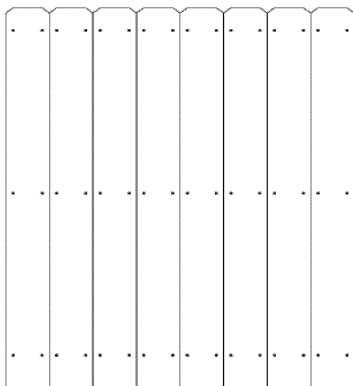

Oasis composite fencing is made by combining bamboo fibers with recycled LDPE plastics, making it more resistant to moisture absorption than your normal timber fence. This in turn means a longer lifespan, less maintenance and resistance to rot, decay and insect or termite investigations.

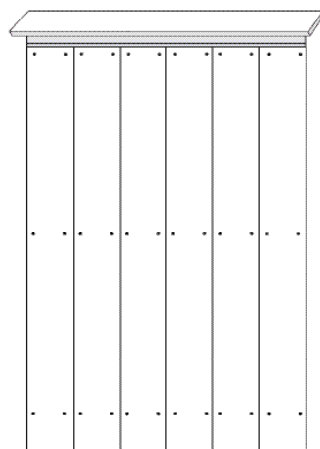

LOW MAINTENANCE BAMBOO COMPOSITE FENCE

Oasis composite boards can be assembled according to your preference, including these styles:

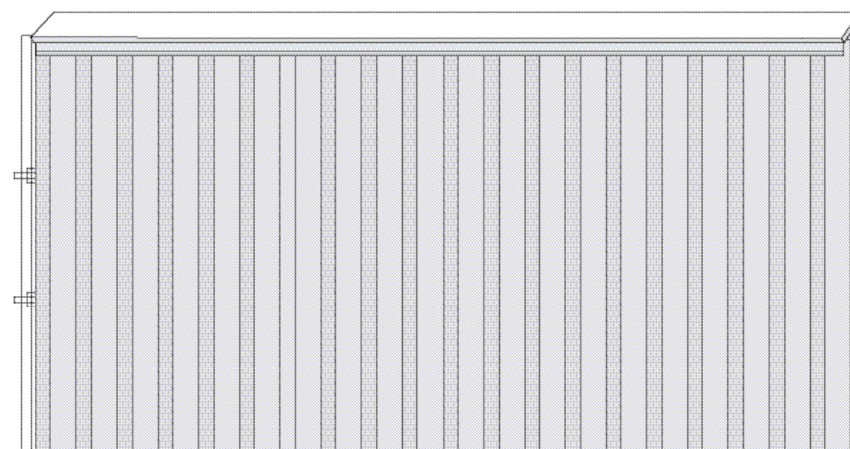

**6' Dog Ear
Side By Side**

**8' Square Board
Side By Side With Trim**

**8' Square Board
Board on Board With Trim**

- Dog Ear & Square Top pickets offered in 8' & 6' lengths
- Customize the look with optional 8' Top Cap
- Easily installed in traditional privacy styles: Board on Board, Shadow Box and Side by Side

BAMBOO COMPOSITE PROFILES

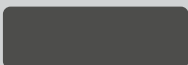

Standard 6" and 8"
square top picket
(Brushed and Dual tone)

Wide 6" and 8"
dog ear picket
(Brushed and Dual tone)

Top Cap (Brushed)

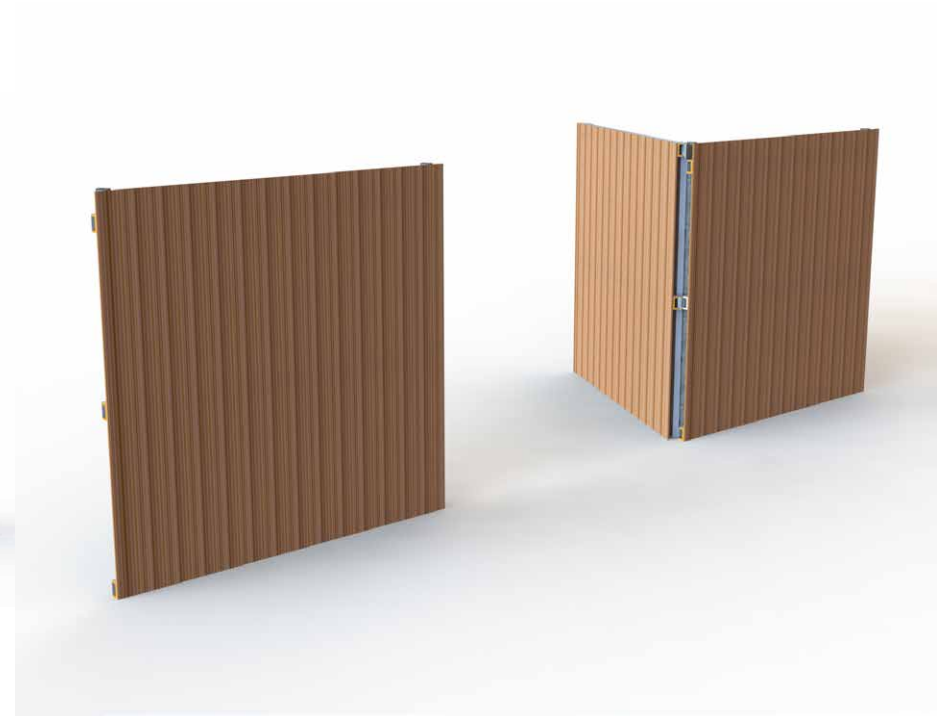

Cross-section	Profile Description	Profile Dimensions	Profile Mass
	Standard 6" picket (Brushed)	136 x 11 mm (5.35" x 0.43")	1.9 kg/m (1.33 lb/ft)
	Standard 6" picket (Dual tone)	136 x 11 mm (5.35" x 0.43")	1.8 kg/m (1.23 lb/ft)
	Wide 8" picket (Brushed)	202 x 11 mm (7.95" x 0.43")	2.9 kg/m (1.97 lb/ft)
	Wide 8" picket (Dual tone)	202 x 11 mm (7.95" x 0.43")	2.8 kg/m (1.87 lb/ft)
	Top cap (Brushed finish only)	145 x 24 mm (5.71" x 0.94")	0.87 kg/m (0.59 lb/ft)
	2 x 4 steel composite rail	76.2 x 38.1 mm (3.00" x 1.50")	1.05 kg/m (0.71 lb/ft)

All pickets available in standard and dog ear design, in 6ft and 8ft lengths.

Fence Gate

OASIS GATE

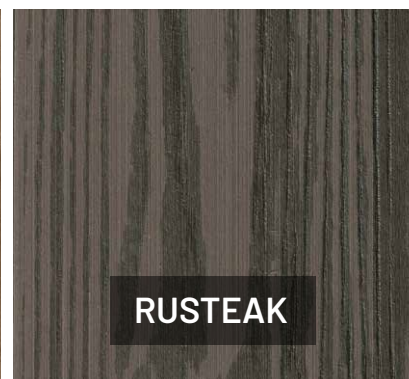

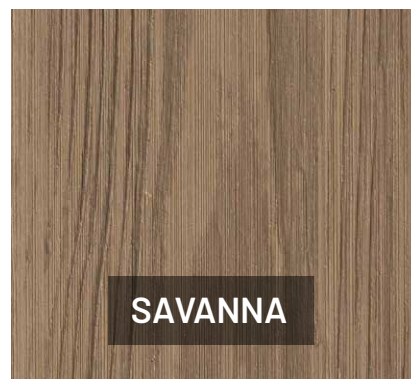

The Oasis fencing system would not be complete without the Oasis gate. Oasis is now available with two hinged gate options for convenient and easy access to your area. Use only one panel for a small entry way, or two panels for a wider entry way. Also available in two different width options.

Sizes: 4' panel and 3' panel (Height of 6' or 8')

BAMBOO COMPOSITE COLOURS

In Eva-tech technology

BRUSHED FINISH

DUAL TONE FINISH

Oasis fencing is available in a selection of natural looking colour options which each give the essence of a particular type of timber. Choose from the classic brushed surface finish or the dual tone textured finish which includes an extra level of colour and a timber grain look for a more realistic aesthetic.

Simple Installation

INSTALLS JUST LIKE WOOD

Oasis Installs just like a wood fence. Simple conveniently sized profiles are easily installed in traditional privacy fence styles. Create board on board, shadow box or side by side installation styles. Customize the look of your fence with an optional 8' Top Cap.

Eco-Friendly Bamboo Composite

LOW ENVIRONMENTAL IMPACT

Holistically sustainable manufacturing & use of raw materials

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically eco-conscious.

Every Eva-Last range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- **Made from recycled materials**
- **No trees felled**
- **No treatment or toxic chemicals required for maintenance**
- **Solar powered manufacturing processes**
- **Reduced impact on landfills (recyclable at the end of life)**
- **Reduced carbon footprint**

THANK YOU
