Apex PLUS

REINFORCED, CAPPED BAMBOO-PVC COMPOSITE

Apex PLUS offers you a resilient and natural looking composite. Its bamboo foamed-PVC and glass fiber-reinforced core allows for increased span capability over Apex. Low-maintenance Apex PLUS is more stable with less expansion and contraction than its predecessor and requires only basic cleaning for optimal longevity. Its protective cap is made from a resilient acrylic polymer coating for long-term fade, scratch, and stain resistance, as well as excellent slip resistance. Apex PLUS also provides decay resistance against insects, moisture, and the elements. Apex PLUS is an eco-friendly alternative to timber that prevents deforestation and premature deck replacement and uses solar power within the manufacturing process.

REINFORCED

PRODUCT COMPOSITION

Apex PLUS

Apex PLUS upgrades your outdoor space with a cutting-edge composition that is equally beautiful and resilient. Its reinforced core gives you greater design freedom by reducing the amount of substructure your project needs and its specialised composition minimises expansion and contraction for a more stable board.

Capping material:

Engineered acrylic polymer

Core material:

Bamboo foamed-PVC composite
with glass fiber-reinforcement

GFR | GLASS FIBER
REINFORCED

TAKE HOME THE BENEFITS

INCREASED SPAN
Reinforcement improves strength & span capability

MORE STABLE
Less movement from expansion & contraction

NATURAL AESTHETIC
Advanced technology for more natural looking composite

SLIP RESISTANT
Excellent slip resistance properties

LOW-MAINTENANCE
Only basic care required for optimal longevity

PROTECTIVE CAP
Fade, scratch, & stain resistant capping technology

DECAY RESISTANT
Resists insects, moisture, & weather

ECO-FRIENDLY
Long-lasting & prevents deforestation

APEX PLUS PROFILE TYPES

Apex PLUS is available in two profile designs to suit the specifics of your outdoor project. Both the grooved board and square edge board offer Apex colour technology, but with the state-of-the-art Apex PLUS reinforced core. All profiles can be cut and installed using standard tools, and each offers a beautiful end look with the use of either HULK hidden fasteners for the grooved board or HULK colour matching top fixing fasteners for the square edge board.

Grooved board

Fascia board

FASCIA BOARDS

Apex fascia boards are non-load bearing profiles that help to add a neat finish to deck sides or areas where trim is needed. They are fastened using colour matching HULK top fixing composite trim screws.

Dimensions	150 x 12 mm
Weight	1.4 kg/m
Span	300 mm*

**Spans based on non-load bearing applications only*

Fasteners

Fascia trim fasteners

Uses HULK composite trim screws

Apex PLUS

APEX DUAL TONE COLOUR GUIDE

SCULPTED
GRAIN FINISH

The Apex PLUS dual tone colour range adds an additional layer of colour to each board to further enhance its natural look. The variance in shades within a single composite profile beautifully showcases the colour tones found in timber making your composite all the more striking. Dual tone colours are ideal for mid-to-large-scale composite decks and projects or other areas that are all about that natural look.

STOCKED COLOURS

AVAILABLE ON SPECIAL ORDER

NOTE: Due to printing and/or screen variations, colours in the brochure may differ slightly from the actual products.

Sustainable manufacturing & use of raw material

The mark of responsible forestry

CHOOSE SUSTAINABLE BUILDING MATERIALS

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Every Eva-Last outdoor range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No treatment or toxic chemicals required for maintenance
- Solar power used in the manufacturing process
- Reduced impact on landfills
- Reduced carbon footprint
